## Important Note

### Collection Tubes Replacement

Dear valued QIAGEN® customer,

We have replaced our standard Collection Tubes with new Waste Tubes made from 100% recycled plastic. These Waste Tubes are an eco-friendly alternative already successfully used in our QIAwave® product line.

The following are the affected QIAGEN kits:

Cat. no.	Product	Cat. no.	Product
28306	QIAquick® Nucleotide Removal Kit (250)	51404	QIAamp® Fast DNA Tissue Kit (50)
31314	Ni-NTA Spin Kit (50)	69104	DNeasy® Plant Mini Kit (50)
47014	DNeasy® PowerSoil Pro Kit (50)	69106	DNeasy® Plant Mini Kit (250)
47016	DNeasy® PowerSoil Pro Kit (250)		

Furthermore, the QIAwave Kits are environmentally friendly alternatives to our most popular kits for DNA, RNA, and plasmid purification. See [www.qiagen.com/more-sustainable-products](http://www.qiagen.com/more-sustainable-products) for more information.

If you have any questions, you can reach us by phone or get online support. Visit [www.qiagen.com/support](http://www.qiagen.com/support) for localized contact details.

Kind regards,  
QIAGEN
