* Indicates labware that can be cooled using a cooling adapter with bar code.

** Indicates labware that can be cooled using a cooling adapter without bar code (non-transferable and not usable on QIA Symphony AS).

† Do not use 96-well plates on "Elution slot 4" because the robotic arm cannot access all positions.

‡ A maximum elution volume of 200 µl can be used with this tube/plate format. If larger elution volumes are required, please select another type of tube/plate.
