## Important Note

### Plastic Reduction Initiative

Dear valued QIAGEN customer,

In our efforts to provide more sustainable solutions, QIAGEN is reducing the amount of plastic waste and environmental footprint of our kits. The blister packaging of our spin columns and components for our kits are being replaced with bags instead.

Rest assured that this change does not have an impact on quality, safety, function, and performance of the kit.

If you have any questions, you can reach us by phone or get online support. For localized contact details, visit [www.qiagen.com/support](http://www.qiagen.com/support)

Kind regards,  
QIAGEN
