WINDOWS OPERATING SYSTEM
Last updated July 2017
IF YOU LIVE IN (OR IF YOUR PRINCIPAL PLACE OF BUSINESS IS IN) THE UNITED STATES,
PLEASE READ THE BINDING ARBITRATION CLAUSE AND CLASS ACTION WAIVER IN
SECTION 11. IT AFFECTS HOW DISPUTES ARE RESOLVED.
Thank you for choosing Microsoft!
Depending on how you obtained the Windows software, this is a license agreement
between (i) you and the device manufacturer or software installer that distributes the software
with your device; or (ii) you and Microsoft Corporation (or, based on where you live or, if a
business, where your principal place of business is located, one of its affiliates) if you
acquired the software from a retailer. Microsoft is the device manufacturer for devices
produced by Microsoft or one of its affiliates, and Microsoft is the retailer if you acquired the
software directly from Microsoft. Note that if you are a volume license customer, use of this
software is subject to your volume license agreement rather than this agreement.
This agreement describes your rights and the conditions upon which you may use the
Windows software. You should review the entire agreement, including any supplemental
license terms that accompany the software and any linked terms, because all of the terms are
important and together create this agreement that applies to you. You can review linked
terms by pasting the (aka.ms/) link into a browser window.

By accepting this agreement or using the software, you agree to all of these terms, and consent to the transmission of certain information during activation and during your use of the software as per the privacy statement described in Section 3. If you do not accept and comply with these terms, you may not use the software or its features. You may contact the device manufacturer or installer, or your retailer if you purchased the software directly, to determine its return policy and return the software or device for a refund or credit under that policy. You must comply with that policy, which might require you to return the software with the entire device on which the software is installed for a refund or credit, if any.

1. **Overview.**

a. **Applicability.** This agreement applies to the Windows software that is preinstalled on your device, or acquired from a retailer and installed by you, the media on which you received the software (if any), any fonts, icons, images or sound files included with the software, and also any Microsoft updates, upgrades, supplements or services for the software, unless other terms come with them. It also applies to Windows apps developed by Microsoft that provide functionality such as mail, contacts, music and photos that are included with and are a part of Windows. If this agreement contains terms regarding a feature or service not available on your device, then those terms do not apply.

b. **Additional terms.** Additional Microsoft and third-party terms may apply to your use of certain features, services and apps, depending on your device's capabilities, how it is configured, and how you use it. Please be sure to read them.

(i)   Some Windows apps provide an access point to, or rely on, online services, and the use of those services is sometimes governed by separate terms and privacy policies, such as the Microsoft Services Agreement at (aka.ms/msa). You can view these terms and policies by looking at the service terms of use or the app's settings, as applicable. The services may not be available in all regions.

(ii)   Microsoft, the device manufacturer or installer may include additional apps, which will be subject to separate license terms and privacy policies.

(iii)   The software includes Adobe Flash Player that is licensed under terms from Adobe Systems Incorporated at (aka.ms/adobeflash). Adobe and Flash are either registered trademarks or trademarks of Adobe Systems Incorporated in the United States and/or other countries.

(iv)   The software may include third-party programs that are licensed to you under this agreement, or under their own terms. License terms, notices and acknowledgements, if any, for the third-party programs can be viewed at (aka.ms/thirdpartynotices).

(v)   To the extent included with Windows, Word, Excel, PowerPoint and OneNote are licensed for your personal, non-commercial use, unless you have commercial use rights under a separate agreement.

2. **Installation and Use Rights.**

a.   **License.** The software is licensed, not sold. Under this agreement, we grant you the right to install and run one instance of the software on your device (the licensed device), for use by one person at a time, so long as you comply with all the terms of this agreement. Updating or upgrading from non-genuine software with software from Microsoft or authorized sources does not make your original version or the updated/upgraded version genuine, and in that situation, you do not have a license to use the software.

b.   **Device.** In this agreement, "device" means a hardware system (whether physical or virtual) with an internal storage device capable of running the software. A hardware partition or blade is considered to be a device.

c.   **Restrictions.** The device manufacturer or installer and Microsoft reserve all rights (such as rights under intellectual property laws) not expressly granted in this agreement. For example, this license does not give you any right to, and you may not:

(i)   use or virtualize features of the software separately;

(ii)   publish, copy (other than the permitted backup copy), rent, lease, or lend the software;

(iii)   transfer the software (except as permitted by this agreement);

(iv)   work around any technical restrictions or limitations in the software;

(v)   use the software as server software, for commercial hosting, make the software available for simultaneous use by multiple users over a network, install the software on a server and allow users to access it remotely, or install the software on a device for use only by remote users;

(vi)   reverse engineer, decompile, or disassemble the software, or attempt to do so, except and only to the extent that the foregoing restriction is (a) permitted by applicable law; (b) permitted by licensing terms governing the use of open-source components that may be included with the software; or (c) required to debug changes to any libraries licensed under the GNU Lesser General Public License which are included with and linked to by the software; and

(vii)   when using Internet-based features you may not use those features in any way that could interfere with anyone else's use of them, or to try to gain access to or use any service, data, account, or network, in an unauthorized manner.

d.   **Multi use scenarios.**

(i)   **Multiple versions.** If when acquiring the software you were provided with multiple versions (such as 32-bit and 64-bit versions), you may install and activate only one of those versions at a time.

(ii)   **Multiple or pooled connections.** Hardware or software you use to multiplex or pool connections, or reduce the number of devices or users that access or use the software, does not reduce the number of licenses you need. You may only use such hardware or software if you have a license for each instance of the software you are using.

(iii)   **Device connections**. You may allow up to 20 other devices to access the software installed on the licensed device for the purpose of using the following software features: file services, print services, Internet information services, and Internet connection sharing and telephony services on the licensed device. You may allow any number of devices to access the software on the licensed device to synchronize data between devices. This section does not mean, however, that you have the right to install the software, or use the primary function of the software (other than the features listed in this section), on any of these other devices.

(iv)   **Use in a virtualized environment**. This license allows you to install only one instance of the software for use on one device, whether that device is physical or virtual. If you want to use the software on more than one virtual device, you must obtain a separate license for each instance.

(v)   **Remote access.** No more than once every 90 days, you may designate a single user who physically uses the licensed device as the licensed user. The licensed user may access the licensed device from another device using remote access technologies. Other users, at different times, may access the licensed device from another device using remote access technologies, but only on devices separately licensed to run the same or higher edition of this software.

(vi)   **Remote assistance.** You may use remote assistance technologies to share an active session without obtaining any additional licenses for the software. Remote assistance allows one user to connect directly to another user's computer, usually to correct problems.

e.   **Backup copy.** You may make a single copy of the software for backup purposes, and may also use that backup copy to transfer the software if it was acquired as stand-alone software, as described in Section 4 below.

3.   **Privacy; Consent to Use of Data.** Your privacy is important to us. Some of the software features send or receive information when using those features. Many of these features can be switched off in the user interface, or you can choose not to use them. By accepting this agreement and using the software you agree that Microsoft may collect, use, and disclose the information as described in the Microsoft Privacy Statement (aka.ms/privacy), and as may be described in the user interface associated with the software features.

4.   **Transfer.** The provisions of this section do not apply if you acquired the software in Germany or in any of the countries listed on this site (aka.ms/transfer), in which case any transfer of the software to a third party, and the right to use it, must comply with applicable law.

a.   **Software preinstalled on device.** If you acquired the software preinstalled on a device (and also if you upgraded from software preinstalled on a device), you may transfer the license to use the software directly to another user, only with the licensed device. The transfer must include the software and, if provided with the device, an authentic Windows

label including the product key. Before any permitted transfer, the other party must agree that this agreement applies to the transfer and use of the software.

b.   Stand-alone software. If you acquired the software as stand-alone software (and also if you upgraded from software you acquired as stand-alone software), you may transfer the software to another device that belongs to you. You may also transfer the software to a device owned by someone else if (i) you are the first licensed user of the software and (ii) the new user agrees to the terms of this agreement. You may use the backup copy we allow you to make or the media that the software came on to transfer the software. Every time you transfer the software to a new device, you must remove the software from the prior device. You may not transfer the software to share licenses between devices.

5.   Authorized Software and Activation. You are authorized to use this software only if you are properly licensed and the software has been properly activated with a genuine product key or by other authorized method. When you connect to the Internet while using the software, the software will automatically contact Microsoft or its affiliate to conduct activation to associate it with a certain device. You can also activate the software manually by Internet or telephone. In either case, transmission of certain information will occur, and Internet, telephone and SMS service charges may apply. During activation (or reactivation that may be triggered by changes to your device's components), the software may determine that the installed instance of the software is counterfeit, improperly licensed or includes unauthorized changes. If activation fails, the software will attempt to repair itself by replacing any tampered Microsoft software with genuine Microsoft software. You may also receive reminders to obtain a proper license for the software. Successful activation does not confirm that the software is genuine or properly licensed. You may not bypass or circumvent activation. To help determine if your software is genuine and whether you are properly licensed, see (aka.ms/genuine). Certain updates, support, and other services might only be offered to users of genuine Microsoft software.

6.   Updates. The software periodically checks for system and app updates, and downloads and installs them for you. You may obtain updates only from Microsoft or authorized sources, and Microsoft may need to update your system to provide you with those updates. By accepting this agreement, you agree to receive these types of automatic updates without any additional notice.

7.   Downgrade Rights. If you acquired a device from a manufacturer or installer with a Professional version of Windows preinstalled on it and it is configured to run in full feature mode, you may use either a Windows 8.1 Pro or Windows 7 Professional version, but only for so long as Microsoft provides support for that earlier version as set forth in (aka.ms/windowslifecycle). This agreement applies to your use of the earlier versions. If the earlier version includes different components, any terms for those components in the agreement that comes with the earlier version apply to your use of such components. Neither the device manufacturer or installer, nor Microsoft, is obligated to supply earlier versions to

you. You must obtain the earlier version separately, for which you may be charged a fee. At any time, you may replace an earlier version with the version you originally acquired.

8.   **Export Restrictions.** You must comply with all domestic and international export laws and regulations that apply to the software, which include restrictions on destinations, end users, and end use. For further information on export restrictions, visit (aka.ms/exporting).

9.   **Warranty, Disclaimer, Remedy, Damages and Procedures.**

a.   **Limited Warranty.** Depending on how you obtained the Windows software, Microsoft, or the device manufacturer or installer, warrants that properly licensed software will perform substantially as described in any Microsoft materials that accompany the software. This limited warranty does not cover problems that you cause, that arise when you fail to follow instructions, or that are caused by events beyond the reasonable control of Microsoft, or the device manufacturer or installer. The limited warranty starts when the first user acquires the software, and lasts for one year if acquired from Microsoft, or for 90 days if acquired from a device manufacturer or installer. If you obtain updates or supplements directly from Microsoft during the 90-day term of the device manufacturer's or installer's limited warranty, Microsoft provides the limited warranty for those updates or supplements. Any supplements, updates, or replacement software that you may receive from Microsoft during that year are also covered, but only for the remainder of that one-year period if acquired from Microsoft, or for 90 days if acquired from a device manufacturer or installer, or for 30 days, whichever is longer. Transferring the software will not extend the limited warranty.

b.   **Disclaimer.** Neither Microsoft, nor the device manufacturer or installer, gives any other express warranties, guarantees, or conditions. **Microsoft and the device manufacturer and installer exclude all implied warranties and conditions, including those of merchantability, fitness for a particular purpose, and non-infringement. If your local law does not allow the exclusion of implied warranties, then any implied warranties, guarantees, or conditions last only during the term of the limited warranty and are limited as much as your local law allows. If your local law requires a longer limited warranty term, despite this agreement, then that longer term will apply, but you can recover only the remedies this agreement allows.**

c.   **Limited Remedy.** If Microsoft, or the device manufacturer or installer, breaches its limited warranty, it will, at its election, either: (i) repair or replace the software at no charge, or (ii) accept return of the software (or at its election the device on which the software was preinstalled) for a refund of the amount paid, if any. The device manufacturer or installer (or Microsoft if you acquired them directly from Microsoft) may also repair or replace supplements, updates, and replacement of the software or provide a refund of the amount you paid for them, if any. **These are your only remedies for breach of warranty.** This

limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state or country to country.

d.   **Damages. Except for any repair, replacement, or refund that Microsoft, or the device manufacturer or installer, may provide, you may not under this limited warranty, under any other part of this agreement, or under any theory, recover any damages or other remedy, including lost profits or direct, consequential, special, indirect, or incidental damages.** The damage exclusions and remedy limitations in this agreement apply even if repair, replacement, or a refund does not fully compensate you for any losses, if Microsoft, or the device manufacturer or installer, knew or should have known about the possibility of the damages, or if the remedy fails of its essential purpose. Some states and countries do not allow the exclusion or limitation of incidental, consequential, or other damages, so those limitations or exclusions may not apply to you. **If your local law allows you to recover damages from Microsoft, or the device manufacturer or installer, even though this agreement does not, you cannot recover more than you paid for the software (or up to $50 USD if you acquired the software for no charge).**

e.   **Warranty and Refund Procedures.** For service or refund, you must provide a copy of your proof of purchase and comply with Microsoft's return policies if you acquired the software from Microsoft, or the device manufacturer's or installer's return policies if you acquired the software from a device manufacturer or installer. If you purchased stand-alone software, those return policies might require you to uninstall the software and return it to Microsoft. If you acquired the software pre-installed on a device, those return policies may require return of the software with the entire device on which the software is installed; the certificate of authenticity label including the product key (if provided with your device) must remain affixed. Contact the device manufacturer or installer at the address or toll-free telephone number provided with your device to find out how to obtain warranty service for the software. If Microsoft is your device manufacturer or if you acquired the software from a retailer, contact Microsoft at:

(i)   United States and Canada. For warranty service or information about how to obtain a refund for software acquired in the United States or Canada, contact Microsoft via telephone at (800) MICROSOFT; via mail at Microsoft Customer Service and Support, One Microsoft Way, Redmond, WA 98052-6399; or visit (aka.ms/nareturns).

(ii)   Europe, Middle East, and Africa. If you acquired the software in Europe, the Middle East, or Africa, contact either Microsoft Ireland Operations Limited, Customer Care Centre, Atrium Building Block B, Carmanhall Road, Sandyford Industrial Estate, Dublin 18, Ireland, or the Microsoft affiliate serving your country (aka.ms/msoffices).

(iii)   Australia. If you acquired the software in Australia, contact Microsoft to make a claim at 13 20 58; or Microsoft Pty Ltd, 1 Epping Road, North Ryde NSW 2113 Australia.

(iv)   Other countries. If you acquired the software in another country, contact the Microsoft affiliate serving your country (aka.ms/msoffices).

10.   Support.
a.   **For software preinstalled on a device.** For the software generally, contact the device manufacturer or installer for support options. Refer to the support number provided with the software. For updates and supplements obtained directly from Microsoft, Microsoft may provide limited support services for properly licensed software as described at (aka.ms/mssupport).
b.   **For software acquired from a retailer.** Microsoft provides limited support services for properly licensed software as described at (aka.ms/mssupport).
11.   **Binding Arbitration and Class Action Waiver if You Live in (or, if a Business, Your Principal Place of Business is in) the United States.**
We hope we never have a dispute, but if we do, you and we agree to try for 60 days to resolve it informally. If we can't, you and we agree to **binding individual arbitration before the American Arbitration Association ("AAA") under the Federal Arbitration Act ("FAA"), and not to sue in court in front of a judge or jury**. Instead, a neutral arbitrator will decide and the arbitrator's decision will be final except for a limited right of review under the FAA. **Class action lawsuits, class-wide arbitrations, private attorney-general actions, and any other proceeding where someone acts in a representative capacity aren't allowed. Nor is combining individual proceedings without the consent of all parties.** "We," "our," and "us" includes Microsoft, the device manufacturer, and software installer.
a.   **Disputes covered—everything except IP.** The term "dispute" is as broad as it can be. It includes any claim or controversy between you and the device manufacturer or installer, or you and Microsoft, concerning the software, its price, or this agreement, under any legal theory including contract, warranty, tort, statute, or regulation, **except disputes relating to the enforcement or validity of your, your licensors', our, or our licensors' intellectual property rights.**
b.   **Mail a Notice of Dispute first.** If you have a dispute and our customer service representatives can't resolve it, send a Notice of Dispute by U.S. Mail to the device manufacturer or installer, ATTN: LEGAL DEPARTMENT. If your dispute is with Microsoft, mail it to Microsoft Corporation, ATTN: CELA ARBITRATION, One Microsoft Way, Redmond, WA 98052-6399. Tell us your name, address, how to contact you, what the problem is, and what you want. A form is available at (aka.ms/disputeform). We'll do the same if we have a dispute with you. After 60 days, you or we may start an arbitration if the dispute is unresolved.
c.   **Small claims court option.** Instead of mailing a Notice of Dispute, and if you meet the court's requirements, you may sue us in small claims court in your county of residence (or, if a business, your principal place of business) or our principal place of business—King County, Washington USA if your dispute is with Microsoft.
d.   **Arbitration procedure.** The AAA will conduct any arbitration under its Commercial Arbitration Rules (or if you are an individual and use the software for personal or household

use, or if the value of the dispute is $75,000 USD or less whether or not you are an individual or how you use the software, its Consumer Arbitration Rules). For more information, see (aka.ms/adr) or call 1-800-778-7879. To start an arbitration, submit the form available at (aka.ms/arbitration) to the AAA; mail a copy to the device manufacturer or installer (or to Microsoft if your dispute is with Microsoft). In a dispute involving $25,000 USD or less, any hearing will be telephonic unless the arbitrator finds good cause to hold an in-person hearing instead. Any in-person hearing will take place in your county of residence (or, if a business, your principal place of business) or our principal place of business—King County, Washington if your dispute is with Microsoft. You choose. The arbitrator may award the same damages to you individually as a court could. The arbitrator may award declaratory or injunctive relief only to you individually to satisfy your individual claim. Under AAA rules, the arbitrator rules on his or her own jurisdiction, including the arbitrability of any claim. But a court has exclusive authority to enforce the prohibition on arbitration on a class-wide basis or in a representative capacity.

e.   **Arbitration fees and payments.**

(i)   **Disputes involving $75,000 USD or less**. The device manufacturer or installer (or Microsoft if your dispute is with Microsoft) will promptly reimburse your filing fees and pay the AAA's and arbitrator's fees and expenses. If you reject our last written settlement offer made before the arbitrator was appointed, your dispute goes all the way to an arbitrator's decision (called an "award"), and the arbitrator awards you more than this last written offer, the device manufacturer or installer (or Microsoft if your dispute is with Microsoft) will: (1) pay the greater of the award or $1,000 USD; (2) pay your reasonable attorney's fees, if any; and (3) reimburse any expenses (including expert witness fees and costs) that your attorney reasonably accrues for investigating, preparing, and pursuing your claim in arbitration.

(ii)   **Disputes involving more than $75,000 USD.** The AAA rules will govern payment of filing fees and the AAA's and arbitrator's fees and expenses.

f.   **Must file within one year.** You and we must file in small claims court or arbitration any claim or dispute (except intellectual property disputes — see Section 11.a.) within one year from when it first could be filed. Otherwise, it's permanently barred.

g.   **Severability**. If any part of Section 11 (Binding Arbitration and Class Action Waiver) is found to be illegal or unenforceable, the remainder will remain in effect (with an arbitration award issued before any court proceeding begins), except that if a finding of partial illegality or unenforceability would allow class-wide or representative arbitration, Section 11 will be unenforceable in its entirety.

h.   **Conflict with AAA rules.** This agreement governs if it conflicts with the AAA's Commercial Arbitration Rules or Consumer Arbitration Rules.

i.   **Microsoft as party or third-party beneficiary.** If Microsoft is the device manufacturer or if you acquired the software from a retailer, Microsoft is a party to this

agreement. Otherwise, Microsoft is not a party but is a third-party beneficiary of your agreement with the device manufacturer or installer to resolve disputes through informal negotiation and arbitration.

12. **Governing Law.** The laws of the state or country where you live (or, if a business, where your principal place of business is located) govern all claims and disputes concerning the software, its price, or this agreement, including breach of contract claims and claims under consumer protection laws, unfair competition laws, implied warranty laws, for unjust enrichment, and in tort, regardless of conflict of law principles. In the United States, the FAA governs all provisions relating to arbitration.

13. **Consumer Rights, Regional Variations.** This agreement describes certain legal rights. You may have other rights, including consumer rights, under the laws of your state or country. You may also have rights with respect to the party from which you acquired the software. This agreement does not change those other rights if the laws of your state or country do not permit it to do so. For example, if you acquired the software in one of the below regions, or mandatory country law applies, then the following provisions apply to you:

a. **Australia.** References to "Limited Warranty" are references to the express warranty provided by Microsoft or the device manufacturer or installer. This warranty is given in addition to other rights and remedies you may have under law, including your rights and remedies under the Australian Consumer Law consumer guarantees. Nothing in this agreement limits or changes those rights and remedies. In particular:.

(i) the provisions excluding and limiting warranties, guarantees, damages and remedies, and limiting duration of your rights under local laws in Section 9 headed **Warranty, Disclaimer, Remedy, Damages and Procedures** do not apply to the Australian Consumer Law consumer guarantees and your rights and remedies under them;

(ii) support and refund policies referred to in Section 10 are subject to the Australian Consumer Law;

(iii) the Australian Consumer Law consumer guarantees apply to the evaluation software described in Section 14 d (ii) and the preview software described in Section 14 d (iv); and

(iv) our goods come with guarantees that cannot be excluded under the Australian Consumer Law. In this section, "goods" refers to the software for which Microsoft, the device manufacturer or installer provides the express warranty. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

To learn more about your rights under the Australian Consumer Law, please review the information at (aka.ms/acl).

b. **Canada.** You may stop receiving updates on your device by turning off Internet access. If and when you re-connect to the Internet, the software will resume checking for and installing updates.

c. **European Union.** The academic use restriction in Section 14.d(i) below does not apply in the jurisdictions listed on this site: (aka.ms/academicuse).

d. **Germany and Austria.**

(i) **Warranty.** The properly licensed software will perform substantially as described in any Microsoft materials that accompany the software. However, the device manufacturer or installer, and Microsoft, give no contractual guarantee in relation to the licensed software.

(ii) **Limitation of Liability.** In case of intentional conduct, gross negligence, claims based on the Product Liability Act, as well as, in case of death or personal or physical injury, the device manufacturer or installer, or Microsoft is liable according to the statutory law. Subject to the preceding sentence, the device manufacturer or installer, or Microsoft will only be liable for slight negligence if the device manufacturer or installer or Microsoft is in breach of such material contractual obligations, the fulfillment of which facilitate the due performance of this agreement, the breach of which would endanger the purpose of this agreement and the compliance with which a party may constantly trust in (so-called "cardinal obligations"). In other cases of slight negligence, the device manufacturer or installer or Microsoft will not be liable for slight negligence.

e. **Other regions.** See (aka.ms/variations) for a current list of regional variations.

14. **Additional Notices.**

a. **Networks, data and Internet usage.** Some features of the software and services accessed through the software may require your device to access the Internet. Your access and usage (including charges) may be subject to the terms of your cellular or internet provider agreement. Certain features of the software may help you access the Internet more efficiently, but the software's usage calculations may be different from your service provider's measurements. You are always responsible for (i) understanding and complying with the terms of your own plans and agreements, and (ii) any issues arising from using or accessing networks, including public/open networks. You may use the software to connect to networks, and to share access information about those networks, only if you have permission to do so.

b. **H.264/AVC and MPEG-4 visual standards and VC-1 video standards.** The software may include H.264/MPEG-4 AVC and/or VC-1 decoding technology. MPEG LA, L.L.C. requires this notice:
THIS PRODUCT IS LICENSED UNDER THE AVC, THE VC-1, AND THE MPEG-4 PART 2 VISUAL PATENT PORTFOLIO LICENSES FOR THE PERSONAL AND NON-COMMERCIAL USE OF A CONSUMER TO (i) ENCODE VIDEO IN COMPLIANCE WITH THE ABOVE STANDARDS ("VIDEO STANDARDS") AND/OR (ii) DECODE AVC, VC-1, AND MPEG-4 PART 2 VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL AND NON-COMMERCIAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO

PROVIDER LICENSED TO PROVIDE SUCH VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION MAY BE OBTAINED FROM MPEG LA, L.L.C. SEE (AKA.MS/MPEGLA).

c.   **Malware protection.** Microsoft cares about protecting your device from malware. The software will turn on malware protection if other protection is not installed or has expired. To do so, other antimalware software will be disabled or may have to be removed.

d.   **Limited rights versions.** If the software version you acquired is marked or otherwise intended for a specific or limited use, then you may only use it as specified. You may not use such versions of the software for commercial, non-profit, or revenue-generating activities.

(i)   **Academic.** For academic use, you must be a student, faculty or staff of an educational institution at the time of purchase.

(ii)   **Evaluation.** For evaluation (or test or demonstration) use, you may not sell the software, use it in a live operating environment, or use it after the evaluation period. Notwithstanding anything to the contrary in this Agreement, **evaluation software is provided "AS IS" and no warranty, implied or express (including the Limited Warranty), applies to these versions.**

(iii)   **NFR.** You may not sell software marked as "NFR" or "Not for Resale".

(iv)   **Preview.** You may choose to use preview, insider, beta, or other pre-release versions of the software ("previews") that Microsoft may make available. You may use previews only up to the software's expiration date and so long as you comply with all the terms of this agreement. Previews are experimental and may be substantially different from the commercially released version. Notwithstanding anything to the contrary in this agreement, **previews are provided "AS IS," and no warranty, implied or express (including the Limited Warranty), applies to these versions. By installing previews on your device, you may void or impact your device warranty and may not be entitled to support from your device manufacturer or network operator, if applicable.** Microsoft is not responsible for any damage thereby caused to you. Microsoft may not provide support services for previews. If you provide Microsoft comments, suggestions or other feedback about the preview ("submission"), you grant Microsoft and its partners rights to use the submission in any way and for any purpose.

15.   **Entire Agreement.** This agreement (together with the printed paper license terms or other terms accompanying any software supplements, updates, and services that are provided by the device manufacturer or installer, or Microsoft, and that you use), and the terms contained in web links listed in this agreement, are the entire agreement for the software and any such supplements, updates, and services (unless the device manufacturer or installer, or Microsoft, provides other terms with such supplements, updates, or services). You can review this agreement after your software is running by going to (aka.ms/useterms) or going to Settings - System - About within the software. You can also review the terms at any of the links in this agreement by typing the URLs into a browser address bar, and you

agree to do so. You agree that you will read the terms before using the software or services, including any linked terms. You understand that by using the software and services, you ratify this agreement and the linked terms. There are also informational links in this agreement. TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,

including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or

agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include

the brackets!) The text should be enclosed in the appropriate
comment syntax for the file format. We also recommend that a
file or class name and description of purpose be included on the
same "printed page" as the copyright notice for easier
identification within third-party archives.

Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

§ 1 Scope of this Agreement
(1) Licensor has agreed with Licensee to grant Licensee a license to use and exploit the software set out
in the software license purchase agreement or in connection with the download link ("Licensed
Software") subject to the terms and conditions of this Software License Agreement ("Agreement").
(2) Licensor points out that Licensed Software may also contain components that do not originate from
Licensor but from third parties ("Third Party Software"). Third Party Software may be part of the Licensed

Software, whereby with respect to Third Party Software only the respective license terms of the Third
Party shall apply. Third Party Software may be software that is freely available under an open source
license or software that is provided by a third party under its own license. As far as required Licensor
shall provide Licensee with an overview of which components are considered Third Party Software and
which conditions apply to them. Licensor may also provide Third Party Software that can be used
together with Licensed Software, such as optional add-ons. In such cases, Third Party Software is not
part of the Licensed Software, so that use is independent of the Licensed Software and the terms and
conditions applicable thereto. For the avoidance of doubt, Third Party Software that is incorporated into
the Licensed Software (i.e., not provided separately) is part of the Licensed Software, but not subject to
the terms and conditions of this Agreement. Third Party Software that is provided together with the
Licensed Software (i.e., provided separately) is not part of the Licensed Software. In both cases, the
respective terms and conditions for the relevant Third Party Software always apply.
(3) Licensor shall also grant Licensee access to user documentation for the Licensed Software ("Licensed
Documentation"). The Licensed Software and the Licensed Documentation are jointly referred to as
"Licensed Material". Any data (e.g. files, data base materials) which is provided by Licensor in
connection with the Licensed Software or the Licensed Documentation is also part of the Licensed
Material.
(4) Any updates for and modifications of the Licensed Material provided by the Licensor during the term of
this Agreement will also be provided subject to the terms and conditions of this Agreement, regardless
of the fact whether or not such updates or modifications are free of charge and regardless whether or
not Licensor explicitly refers to this Agreement.

§ 2 Grant of Rights; Restrictions
(1) Licensee acknowledges that Licensor is the sole owner of all rights in and all know-how pertaining to
the Licensed Material except as for Third-Party Software. Licensee shall forbear to attack those rights
and will adequately inform third parties of Licensor's ownership of those rights. Regarding Third Party
Software, Licensor clarifies that no rights as author or rights holder are claimed by Licensor in this
respect.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(2) Licensor hereby grants to Licensee the non-exclusive, non-transferable right to use and exploit and the
right to copy the Licensed Material without limitation in time, manner or place subject to the terms and
conditions of this Agreement. With respect to the Licensed Software Licensor grants to Licensee also
the non-exclusive and non-transferable rights to revise and to compile the Licensed Software as far as
mandatory legal provisions prevent Licensor from the exclusion of such right; any further right to revise
or to compile is excluded.
(3) The right to use and exploit is limited to the purposes described in this Agreement, especially the
specified Purpose of Use.
(4) The right to copy the Licensed Software herein is limited to the installation of the Licensed Software on
a Single Computer System which is in Licensee's immediate possession and to fulfill the Purpose of
Use. For the purposes of this Agreement, a Single Computer System means any instance of a computer
on which the Licensed Software can be installed or which can be used to operate the Licensed Software.
In the case of virtualization, each virtualized system is a Single Computer System; a Single Computer

System may include one or more processors with one or more cores. Licensee may copy the Licensed
Software as far as this is required for the loading, display, running, transfer or storage of the Licensed
Software on the Single Computer System after the installation. Furthermore, Licensee is entitled to make
a copy for security backup purposes if and as required by mandatory legal provisions.
(5) The right to use and exploit and the right to copy the Licensed Documentation as a single product are
limited to internal purposes. Licensee may make printouts and/or additional copies provided that these
printouts and/or copies are solely used for internal purposes.
(6) Licensee may transfer the rights granted under this Agreement to a third party provided that the Licensed
Software is incorporated in Licensee's products as described under the Purpose of Use and Licensee's
product is sold or otherwise distributed with the Licensed Software being incorporated. For the
avoidance of doubt, Licensee may not sell, transfer or otherwise distribute the Licensed Software without
it being incorporated in Licensee's products. Licensee shall ensure that all obligations under this
Agreement are passed on to the third party to which Licensee's products are sold or otherwise
distributed. Licensee may not retain any Licensed Material after the transfer.
(7) More extensive rights, especially concerning the right to use and exploit the Licensed Software, are not
granted to Licensee. The provisions of this Agreement shall be narrowly construed in cases of doubt.
Licensor's copyright of the Software shall not be exhausted by this Agreement.
(8) The Licensed Software may contain code provided by third parties (e.g. open source software or
Microsoft software). Such code is protected by the third parties' intellectual property rights and – for the
benefit of the third parties – subject to the restrictions of this Agreement.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

§ 3 Purpose of Use
(1) Licensor is licensing the Licensed Software to Licensee for incorporation in Licensee's products. The
Licensed Software is designed to be incorporated in a hardware product, e.g. a manufacturing machine.
Software is not regarded as a product under this Agreement. Therefore, Licensee may not sell, transfer
or otherwise distribute the Licensed Software if it is only combined with or incorporated in a software
product.
(2) Prior to distribution of a product by Licensee that contains Licensed Software, Licensee shall ensure
that the Licensed Software works properly and can be used in connection with its own product; the same
shall apply in the event of the import of updates and the making of adjustments relating to Licensed
Software.
(3) The Licensed Software shall only be used as a single installed instance on one Single Computer System
as defined in § 2 (4). A Single Computer System shall be identified by, among others, its central
processing unit ("CPU"). The use of the Licensed Software is also admitted on a single virtual machine.
Licensee is obliged to provide information on the use of virtual machines upon request. A parallel use
of the Licensed Software by means of cloned virtual machines shall be prohibited.
(4) (4) In the event of a change of CPU or other hardware components or a change of the virtual machine,
the Licensee may have to request new licence keys from the Licensor. Licensee is responsible for
providing the system environment in accordance with system requirements for the use of the Licensed
Software specified by Licensor.
(5) Licensee may connect the Licensed Software to other software (facilitating interoperability). The
Licensed Documentation shall contain a description of the interfaces provided for this purpose.

Otherwise, Licensee shall not modify, translate, or otherwise edit and transform the Licensed Software.
Neither shall Licensee retranslate the software into the form of source programs or other modes of
presentation. Any retranslation of parts the Licensed Software for making an independently developed
program interoperable with the Licensed Software shall be subject to the applicable legal provisions and
of license provisions of code contained under par. 2(8).
(6) Licensor provides with the Licensed Software a tool to enable Licensee to create own software and to
incorporate such software with the Licensed Software in a hardware product. Licensor does not warrant
that the Licensed Software is suitable for any particular purpose. Licensee is obliged to examine the
suitability of the Licensed Software and any software based on or connected with the Licensed Software.
Licensee shall not incorporate the Licensed Software in any hardware product without adequate testing.
§ 4 Protection of Licensed Material
(1) Notwithstanding the Grants of Rights, Licensor shall keep all rights of the Licensed Material, and that
includes any copies or partial copies of any Licensed Material made by or on behalf of Licensee. The
foregoing shall not affect Licensee's property of data storage media, memory devices, and data
processing devices.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(2) Licensee shall leave any notices of intellectual property rights, such as copyright notices and other
reservations of rights unchanged, and it shall adopt such notices without change into any copies made
by Licensee of Licensed Material in whole or in part.
(3) Licensee shall neither make Licensed Material available to third parties in original, nor as complete or

partial copies, without Licensor's express written consent. The same shall apply in the case of complete
or partial sale or dissolution of Licensee's business enterprise. Licensee's employees or other persons
shall not be considered to be third parties while they stay with Licensee in order to make use of Licensed
Material as provided under this Agreement.
(4) License shall not modify or distribute the Licensed Material or parts thereof in a way that the Licensed
Material requires, as a condition of use, modification or distribution, that the code of the Licensed
Software to be disclosed or distributed in source code or others have the right to modify the code of the
Licensed Software.
(5) The Licensed Software is subject to a product activation process. Licensee may use the Licensed
Software for an evaluation ("trial") with respective product trial features before activation. This use of the
trial version may be subject to time or functional restrictions. After expiration of the evaluation, the
Licensed Software can only be used continuously, fully featured, after the product activation process
has been successfully completed.
(6) In order to create license keys necessary for the completion of the product activation process, Licensor
may request certain data from Licensee. Licensee is obliged to answer Licensor's requests in due
course. Licensor may also establish a direct connection between the computer system on which the
Licensed Software is installed and a system operated by or on behalf of Licensor in order to exchange
the necessary data for the product activation process.
(7) In addition to the product activation process, the Licensed Software may be protected by a software
protection measures. If the Licensee uses third party hardware for the execution of the Licensed
Software, the use of a specific software protection measure offered by Licensor may be mandatory.

(8) Licensee may not try to disable or bypass any protection established by Licensor unless explicitly
permitted by mandatory legal provisions.
§ 5 Delivery
(1) Licensor shall deliver the Licensed Software for the exercise of the rights to use and exploit granted to
Licensee herein in machine-readable form at Licensor's sole discretion either stored on a type of data
storage media in common use at the time or by making available the Licensed Software for download.
(2) Licensee shall receive the Licensed Documentation as electronic document unless agreed otherwise.
The Licensed Documentation can, also at Licensor's sole discretion, be stored on the same or a different
data storage medium as the Licensed Software or it can be made available for download.
(3) If Licensed Material is made available for download Licensor shall provide Licensee with all information
necessary to download the Licensed Material, e.g. URL and/or passwords.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(4) Insofar as the obligation exists with respect to Third Party Software to make the source code available
with the corresponding Third Party Software, Licensor shall fulfill a corresponding obligation upon
request by providing the source code or making the source code available, for example for download
via a specified link.
§ 6 License Fees
(1) The licensee fees owed by Licensee to Licensor for the grant of rights hereunder are determined by
Licensor based on the software version provided to Licensee.
(2) Licensor will invoice the license fees to Licensee. Invoices are due upon receipt. A payment term is
granted in accordance with the stipulations contained in the invoice. In the event Licensor's affiliate is

involved in the invoicing and/or collection of the fees a payment to or an invoice rendered by such
Licensor's affiliate shall be deemed a payment to or an invoice rendered by Licensor for purposes of
this § 6.
(3) All amounts in this Agreement are stated excluding any applicable Value Added Taxes (VAT) and sales
tax, if any. The current rate of statutory VAT and sales tax shall be invoiced and paid in addition to all
fees as far as applicable. Licensor shall state the rate and amount of VAT separately on the invoice.
§ 7 Warranty
(1) The parties agree that it is not possible to develop software such that it meets all the requirements of
the application without error. Licensor shall make available the Licensed Documentation explaining the
intended use and the conditions of usage of the Licensed Software, which shall always be kept up to
date.
(2) Licensor warrants Licensee that the Licensed Software provided by Licensor is substantially in
accordance with the Licensed Documentation. There can be no claim under this warranty in the case of
minor or immaterial deviations from the agreed or assumed characteristics nor in the case of merely
slight impairment of use. Descriptions given in the Licensed Documentation shall not be deemed
guaranteed unless separately agreed in writing. In respect of updates and modifications, the warranty
shall be limited to the latest version of the software or new features of the update or modification
compared to the previous version release.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(3) In case of a significant deviation from the Licensed Documentation, Licensor shall have the right and,

unless this requires unreasonable expenditure and unless it is technically not possible, the duty to
remedy such deviation by improvement, replacement delivery or replacement services. The remedying
of a significant deviation may also take place through the delivery or installation of a new version of the
Licensed Software or a workaround. If Licensor does not succeed in eliminating such significant
deviations from the Licensed Documentation within a period of time of reasonable length or is unable to
avoid such deviations in a manner allowing Licensee a usage of the Licensed Software as provided
under this Agreement, Licensee may demand a reduction of the licensee fees or, if the Licensed
Software is rendered useless for Licensee, it may cancel the license for the Licensed Software without
notice against redemption of the licensee fees.
(4) Licensee shall make verifiable documents concerning the kind and the occurrence of such deviations in
the performance of the Licensed Software available to Licensor, and it shall cooperate in the localization
of defects.
(5) This warranty shall not extend to defects caused by deviating from the conditions intended for the use
of the Licensed Software and explained in the Licensed Documentation.
(6) The warranty period is limited to one (1) year and shall begin on the date of delivery of the Licensed
Material to Licensee. This warranty is exclusive of any warranty claims other than the ones mentioned
under this § 7 and § 8.
(7) The warranty regulations shall not apply for the time of a timely limited trial period, except in cases of
willfully caused malfunctions of the Licensed Software.
§ 8 Liability of Licensor
(1) Licensor shall have unlimited liability in the event of intent and gross negligence of Licensor or Licensor's
agents; in all other respects, liability shall be limited and/or excluded in accordance with the following
provisions.

(2) Licensor shall only be liable for slight negligence of Licensor or Licensor's agents if an obligation which
is of particular importance for realizing the objective of this Agreement is infringed upon (i.e. a material
duty). In this case, liability shall be limited as defined in the following subparagraph; in all other cases,
liability for slight negligence shall be excluded in its entirety.
(3) With regard to the slightly negligent breach of a material duty, liability of Licensor and Licensor's agents
shall be limited to the contractually relevant, foreseeable damage or loss. Licensee shall point out to
Licensor in writing any special risks, any atypical possibilities of sustaining damages and any
extraordinary amounts of damages that may be sustained. Licensor shall, however, be exempted from
any liability for consequential damages, for lack of economic success, for indirect damages, and for
damages resulting from claims of third parties, in particular such damages resulting from the use of the
Licensed Software for the development of other software. The exclusion of liability as defined before
shall not apply insofar as the excluded liability elements are part of the contractual relevant, foreseeable
damage, which the parties do not assume.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(4) Licensor's liability does not include any compensation for damages of a hardware product in which the
Licensed Software is incorporated or caused by such a hardware product. Furthermore, Licensor's
liability under the subparagraph (3) is limited to the maximum amount equal to the license fees for the
Licensed Software.
(5) Licensor shall not be liable beyond the bounds set forth under subparagraph (1) and (2), except for

insufficient quality of the software through Licensor's own fault or through the fault of its agents, but only
if essential functions of the supplied software are affected by such insufficient quality of the software,
and for any other breach or nonperformance of duties essential for the performance of this agreement
through Licensor's own fault or through the fault of its agents.
(6) Licensor shall only be liable for the recovery of data if Licensee has secured the possibility of reproducing
such data at reasonable expenditure and in accordance with the principles of proper data processing
from data provided in machine-readable form.
(7) The same limitations of licensor's liability as set forth under the foregoing subparagraph (2) shall apply
to any culpable breach of duties under this agreement committed by ordinary agents.
(8) Licensor's liability for a breach of guarantees, under the Product Liability Act and for death, personal
injury or damage to health caused by intent or negligence shall remain unaffected by the foregoing
provisions.
§ 9 Intellectual Property Rights of Third Parties
(1) Licensor warrants that it has no present knowledge of an intellectual property right or copyright of a third
party which prevents the use of Licensed Material in accordance with this Agreement.
(2) It is in Licensor's sole discretion to decide if Licensor defends Licensee against claims made for an
infringement of an intellectual property right or copyright caused by the Licensed Material while used as
per this Agreement. Licensee shall notify Licensor without delay of the making of any such claims. If
Licensor does not defend Licensee, Licensee shall be free to defend itself. Licensor shall assist Licensee
in doing so, just as Licensee is under an obligation to assist Licensor.
(3) If claims under subparagraph (2) have been asserted against Licensee, or if such assertions of claims
must be expected, Licensor may modify or replace the Licensed Material at its own expense as far as
this is reasonable for Licensee. Each party to this Agreement may cancel the license without notice if

such modification or replacement cannot be accomplished at a reasonable expenditure, or if a right of
use cannot be obtained at a reasonable expenditure. This notwithstanding, the provisions made under
§ 8 for the limitation of Licensor's liability shall be applicable correspondingly.
§ 10 Conditions of Usage
(1) The License Materials delivered to Licensee have been developed for being used in a specific Computer
System and for the interaction with specific other software. These conditions of usage are set forth in
the performance description.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(2) If the License Materials are used in a manner not complying with the conditions of usage under sub-
paragraph (1) Licensor shall be discharged from any and all warranty obligations under § 7, 8 and 9.
§ 11 Termination, Return and Deletion of License Materials
(1) Licensee may cancel this Agreement as a whole or, if Licensee has acquired more than one license,
with respect to any acquired license in part by giving one month's notice hereof to Licensor.
(2) Licensor shall not cancel this Agreement any sooner than after twelve (12) months for the purpose of a
general revision of the terms and conditions of this Agreement, and it shall give Licensee three months'
notice hereof. If it is not reasonable for Licensee, under the revised terms and conditions after Licensor's
notice of cancellation, to continue using the Licensed Software for which Licensee has paid non-
recurrent license fees, Licensee shall be reimbursed pro rata for the time Licensee could not use the
Licensed Software, the basis for such pro rata reimbursement being the ordinary useful life of the
Licensed Software under tax law. This Agreement is subject to cancellation without notice by either party

for good cause ("wichtiger Grund"); in particular, but not limited thereto, in case of a breach of § 2, 3 and
4.
(3) As soon as a notice takes effect, regardless of its time and reason, Licensee shall return to Licensor the
original and all copies and partial copies of the Licensed Material. As far as the Licensed Software which
is stored on data storage media is concerned, the Licensed Software shall be completely deleted in lieu
of being returned.
(4) If Licensee replaces cancelled software by a successor application offered by Licensor it may keep the
cancelled software for up to three months as a standby reserve. Any further retention of an archival
storage copy shall be subject to a written agreement.
§ 12 Statute of Limitations, Miscellaneous
(1) Any claims made for a breach of § 2, 3 and 4 shall expire no later than six (6) years after their accrual,
any other claims from this Agreement shall expire no later than three (3) years after their accrual, un-
less shorter terms are applicable under the statute of limitations.
(2) Any modification of or supplement of this Agreement shall only be valid if made in writing. This shall also
apply to amendments of this written form requirement.
(3) The parties agree that any disputes arising from this Agreement shall come under the exclusive
jurisdiction of the courts of competent jurisdiction over Verl, Germany. Licensor reserves its right,
however, to file suit against Licensee with the court of competent jurisdiction over Licensee's commercial
domicile.
(4) This Agreement is governed by the Law of the Federal Republic of Germany except for the United
Nations Convention on Contracts for the International Sales of Goods (CSIG).

   TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

   1. Definitions.

      "License" shall mean the terms and conditions for use, reproduction,
      and distribution as defined by Sections 1 through 9 of this document.

      "Licensor" shall mean the copyright owner or entity authorized by
      the copyright owner that is granting the License.

      "Legal Entity" shall mean the union of the acting entity and all
      other entities that control, are controlled by, or are under common
      control with that entity. For the purposes of this definition,
      "control" means (i) the power, direct or indirect, to cause the
      direction or management of such entity, whether by contract or
      otherwise, or (ii) ownership of fifty percent (50%) or more of the
      outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade

names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

   To apply the Apache License to your work, attach the following

   replaced with your own identifying information. (Don't include
   the brackets!) The text should be enclosed in the appropriate
   comment syntax for the file format. We also recommend that a
   file or class name and description of purpose be included on the
   same "printed page" as the copyright notice for easier
   identification within third-party archives.

Version 4 rev.2

THIS DOCUMENT IS A LEGAL AGREEMENT (the "License Agreement") BETWEEN EMGU Corporation ("We," "Us") AND YOU OR THE ORGANIZATION ON WHOSE BEHALF YOU ARE UNDERTAKING THE LICENSE DESCRIBED BELOW ("You") IN RELATION TO THE EMGU CV SOFTWARE (THE "Software"), IN BOTH SOURCE AND OBJECT CODE FORM, AND/OR ALL RELATED MATERIALS. BY DOWNLOADING, INSTALLING, COPYING OR OTHERWISE USING THE SOFTWARE, YOU ACCEPT THE FOLLOWING TERMS AND CONDITIONS. IF YOU DO NOT AGREE WITH ANY OF THE TERMS OR CONDITIONS OF THIS LICENSE AGREEMENT, DO NOT PROCEED WITH THE DOWNLOADING, COPYING, INSTALLATION OR ANY OTHER USE OF THE SOFTWARE OR ANY PORTION THEREOF. THE SOFTWARE IS PROTECTED BY UNITED STATES COPYRIGHT LAWS AND INTERNATIONAL COPYRIGHT LAWS, AS WELL AS OTHER INTELLECTUAL PROPERTY LAWS AND TREATIES. THE SOFTWARE IS LICENSED, NOT SOLD.

THIS LICENSE AGREEMENT DESCRIBES YOUR RIGHTS WITH RESPECT TO THE SOFTWARE AND ITS COMPONENTS.

We, EMGU Corporation, grant You a non-exclusive, non-transferable license to the Software solely as set forth in sections 1(a), 1(b) or 1(c), as applicable, and subject to the terms and conditions of this License Agreement.

1. OWNERSHIP, LICENSE GRANT

This is a license agreement and not an agreement for sale. We reserve ownership of all intellectual property rights inherent in or relating to the Software, which include, but are not limited to, all copyright, patent rights, all rights in relation to registered and unregistered trademarks (including service marks), confidential information (including trade secrets and know-how) and all rights other than those expressly granted by this Agreement.

a. Developer License:

Subject to the payment of the fee required for a Commercial Developer License and subject to the terms and conditions of this License Agreement, We grant to You a revocable, non-transferable and non-exclusive license
(i) for a single developer within Your organization to install and use the Software on any workstations used exclusively by such developer and
(ii) for You to install and use the Software in unlimited clients, solely in connection with distribution of the Software in accordance with sections 3 and 4 below. This license is not sub-licensable except as explicitly set forth herein.

b. Workgroup License:

Subject to the payment of the fee required for a Commercial Developer License and subject to the terms and conditions of this License Agreement, We grant to You a revocable, non-transferable and non-exclusive license
(i) for up to twenty five (25) developers within Your organization to install and use the Software on any workstations used exclusively by such developers and
(ii) for You to install and use the Software in unlimited clients, solely in connection with distribution of the Software in accordance with sections 3 and 4 below. This license is not sub-licensable except as explicitly set forth herein.

c. Enterprise License:

Subject to the payment of the fee required for a Commercial Developer License and subject to the terms and conditions of this License Agreement, We grant to You a revocable, non-transferable and non-exclusive license
(i) for up to one hundred (100) developers within Your organization to install and use the Software on any workstations used exclusively by such developers and
(ii) for You to install and use the Software in unlimited clients, solely in connection with distribution of the Software in accordance with sections 3 and 4 below. This license is not sub-licensable except as explicitly set forth herein.

Open CV 4.5.0 and newer releases are covered by Apache 2.0 license, Open CV 4.4.0 and prior releases are covered by BSD license, Tesseract OCR is covered by Apache 2.0 license. Some algorithms implemented by OpenCV, such as SURF and haar-cascade are patented in the U.S. It is your responsibility to check whether the algorithms you used are patented in your country and contact the patent owner if you want to use them in your commercial software. Open CV also use FFmpeg, which is under its own license. If you use video encoder and decoder in Open CV, it is likely that you are using FFmpeg components. Legal information regarding FFmpeg can be found at http://www.ffmpeg.org/legal.html. It is your responsibility to obey the license terms of the above 3rd party libraries.

2. PERMITTED USES, SOURCE CODE, MODIFICATIONS

We provide You with source code so that You can create Modifications of the original Software, where Modification means: a) any addition to or deletion from the contents of a file included in the original Software or previous Modifications created by You, or b) any new file that contains any part of the original Software or previous Modifications. While You retain all rights to any original work authored by You as part of the Modifications, We continue to own all copyright and other intellectual property rights in the Software.

3. DISTRIBUTION

You may distribute the Software in any applications, frameworks, or elements that you develop using the Software in accordance with this License Agreement, provided that such distribution does not violate the restrictions set forth in section 4 of this agreement. You must not remove, obscure or interfere with any copyright, acknowledgment, attribution, trademark, warning or disclaimer statement affixed to, incorporated in or otherwise applied in connection with the Software.

You are required to ensure that the Software is not reused by or with any applications other than those with which You distribute it as permitted herein. For example, if You install the Software on a customer's server, that customer is not permitted to use the Software independently of Your application, and must be informed as such.

You will not owe EMGU Corporation any royalties for Your distribution of the Software in accordance with this License Agreement.

4. PROHIBITED USES

You may not, without prior written consent of EMGU Corporation, redistribute the Software or Modifications other than by including the Software or a portion thereof within Your own product, which must have substantially different functionality than the Software or Modifications and must not allow any third party to use the Software or Modifications, or any portions thereof, for software development purposes. You are explicitly not allowed to redistribute the Software or Modifications as part of any product that can be described as a development toolkit or library or is intended for use by software developers and not end-users. You are not allowed to redistribute any part of the Software documentation.

You may not: a) use any part of the Software or Modifications or Your knowledge of the Software (or any information that You learn as a result of Your use of the Software) to create a product with the same or substantially the same functionality as the Software; b) transfer, rent, lease, or sublicense the Software or Modifications, or any portions thereof; c) change or remove the copyright notice from any of the files included in the Software or Modifications.

UNDER NO CIRCUMSTANCES MAY YOU USE THE SOFTWARE (INCLUDING WITHOUT LIMITATION THE SOURCE CODE THEREOF) AS THE BASIS FOR OR IN CONNECTION WITH A PRODUCT THAT CONTAINS THE SAME, OR SUBSTANTIALLY THE SAME, FUNCTIONALITY AS THE SOFTWARE.

5. TERMINATION

This License Agreement and Your right to use the Software and Modifications will terminate immediately without notice if You fail to comply with the terms and conditions of this License Agreement. Upon termination, You agree to immediately cease using and destroy the Software or Modifications, including all accompanying documents. The provisions of sections 4, 5, 6, 7, and 8 will survive any termination of this License Agreement.

6. DISCLAIMER OF WARRANTIES

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EMGU CORPORATION AND ITS SUPPLIERS DISCLAIM ALL WARRANTIES AND CONDITIONS, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, WITH REGARD TO THE SOFTWARE. EMGU CORPORATION DOES NOT GUARANTEE THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR

ERROR-FREE, AND YOU ACKNOWLEDGE THAT IT IS NOT TECHNICALLY PRACTICABLE FOR EMGU CORPORATION TO DO SO.

7. LIMITATION OF LIABILITIES

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL EMGU CORPORATION OR ITS SUPPLIERS BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION OR ANY OTHER PECUNIARY LAW) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF EMGU CORPORATION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN ANY CASE, EMGU CORPORATION'S ENTIRE LIABILITY UNDER ANY PROVISION OF THIS LICENSE AGREEMENT SHALL BE LIMITED TO THE GREATER OF THE AMOUNT ACTUALLY PAID BY YOU FOR THE SOFTWARE OR FIVE ($5.00) DOLLARS (USD).

8. MISCELLANEOUS

The license granted herein applies only to the version of the Software downloaded or installed in connection with the terms of this Agreement. Any previous or subsequent license granted to You for use of the Software shall be governed by the terms and conditions of the agreement entered in connection with downloading or installation of that version of the Software.

You agree that you will comply with all applicable laws and regulations with respect to the Software, including without limitation all export and re-export control laws and regulations.

While redistributing the Software or Modifications thereof, You may choose to offer acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this Agreement. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on our behalf. You agree to indemnify, defend, and hold Us harmless from and against any liability incurred by, or claims asserted against, Us by reason of Your accepting any such support, warranty, indemnity or additional liability.

You agree to be identified as a customer of ours and You agree that We may refer to You by name, trade name and trademark, if applicable, and may briefly describe Your business in our marketing materials and web site.

You may not assign this License Agreement without the prior written consent of EMGU CORPORATION. This License Agreement will inure to the benefit of the successors and assigns of EMGU CORPORATION.

You acknowledge that this License Agreement is complete and is the exclusive representation of our agreement. No oral or written information given by Us or on our behalf shall create a warranty or collateral contract, or in any way increase the scope of this License Agreement in any way, and You may not rely on any such oral or written information.

If any provision in this License Agreement shall be determined to be invalid, such provision shall be deemed omitted; the remainder of this License Agreement shall continue in full force and effect.

This License Agreement may be modified only by a written instrument signed by an authorized representative of each party.

If the Software or any related documentation is licensed to the U.S. government or any agency thereof, it will be deemed to be "commercial computer software" or "commercial computer software documentation," pursuant to SFAR Section 227.7202 and FAR Section 12.212. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EMGU CORPORATION AND ITS SUPPLIERS DISCLAIM ALL WARRANTIES AND CONDITIONS, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, WITH REGARD TO THE SOFTWARE. EMGU CORPORATION DOES NOT GUARANTEE THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR

ERROR-FREE, AND YOU ACKNOWLEDGE THAT IT IS NOT TECHNICALLY PRACTICABLE FOR EMGU CORPORATION TO DO SO.

7. LIMITATION OF LIABILITIES

IN ANY CASE, EMGU CORPORATION'S ENTIRE LIABILITY UNDER ANY PROVISION OF THIS LICENSE AGREEMENT SHALL BE LIMITED TO THE GREATER OF THE AMOUNT ACTUALLY PAID BY YOU FOR THE SOFTWARE OR FIVE ($5.00) DOLLARS (USD).

Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

§ 1 Scope of this Agreement
(1) Licensor has agreed with Licensee to grant Licensee a license to use and exploit the software set out
in the software license purchase agreement or in connection with the download link ("Licensed
Software") subject to the terms and conditions of this Software License Agreement ("Agreement").
(2) Licensor points out that Licensed Software may also contain components that do not originate from
Licensor but from third parties ("Third Party Software"). Third Party Software may be part of the Licensed
Software, whereby with respect to Third Party Software only the respective license terms of the Third
Party shall apply. Third Party Software may be software that is freely available under an open source
license or software that is provided by a third party under its own license. As far as required Licensor
shall provide Licensee with an overview of which components are considered Third Party Software and
which conditions apply to them. Licensor may also provide Third Party Software that can be used

together with Licensed Software, such as optional add-ons. In such cases, Third Party Software is not
part of the Licensed Software, so that use is independent of the Licensed Software and the terms and
conditions applicable thereto. For the avoidance of doubt, Third Party Software that is incorporated into
the Licensed Software (i.e., not provided separately) is part of the Licensed Software, but not subject to
the terms and conditions of this Agreement. Third Party Software that is provided together with the
Licensed Software (i.e., provided separately) is not part of the Licensed Software. In both cases, the
respective terms and conditions for the relevant Third Party Software always apply.
(3) Licensor shall also grant Licensee access to user documentation for the Licensed Software ("Licensed
Documentation"). The Licensed Software and the Licensed Documentation are jointly referred to as
"Licensed Material". Any data (e.g. files, data base materials) which is provided by Licensor in
connection with the Licensed Software or the Licensed Documentation is also part of the Licensed
Material.
(4) Any updates for and modifications of the Licensed Material provided by the Licensor during the term of
this Agreement will also be provided subject to the terms and conditions of this Agreement, regardless
of the fact whether or not such updates or modifications are free of charge and regardless whether or
not Licensor explicitly refers to this Agreement.
§ 2 Grant of Rights; Restrictions
(1) Licensee acknowledges that Licensor is the sole owner of all rights in and all know-how pertaining to
the Licensed Material except as for Third-Party Software. Licensee shall forbear to attack those rights
and will adequately inform third parties of Licensor's ownership of those rights. Regarding Third Party
Software, Licensor clarifies that no rights as author or rights holder are claimed by Licensor in this
respect.

Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG

and LICENSEE

(2) Licensor hereby grants to Licensee the non-exclusive, non-transferable right to use and exploit and the
right to copy the Licensed Material without limitation in time, manner or place subject to the terms and
conditions of this Agreement. With respect to the Licensed Software Licensor grants to Licensee also
the non-exclusive and non-transferable rights to revise and to compile the Licensed Software as far as
mandatory legal provisions prevent Licensor from the exclusion of such right; any further right to revise
or to compile is excluded.
(3) The right to use and exploit is limited to the purposes described in this Agreement, especially the
specified Purpose of Use.
(4) The right to copy the Licensed Software herein is limited to the installation of the Licensed Software on
a Single Computer System which is in Licensee's immediate possession and to fulfill the Purpose of
Use. For the purposes of this Agreement, a Single Computer System means any instance of a computer
on which the Licensed Software can be installed or which can be used to operate the Licensed Software.
In the case of virtualization, each virtualized system is a Single Computer System; a Single Computer
System may include one or more processors with one or more cores. Licensee may copy the Licensed
Software as far as this is required for the loading, display, running, transfer or storage of the Licensed
Software on the Single Computer System after the installation. Furthermore, Licensee is entitled to make
a copy for security backup purposes if and as required by mandatory legal provisions.
(5) The right to use and exploit and the right to copy the Licensed Documentation as a single product are

limited to internal purposes. Licensee may make printouts and/or additional copies provided that these
printouts and/or copies are solely used for internal purposes.
(6) Licensee may transfer the rights granted under this Agreement to a third party provided that the Licensed
Software is incorporated in Licensee's products as described under the Purpose of Use and Licensee's
product is sold or otherwise distributed with the Licensed Software being incorporated. For the
avoidance of doubt, Licensee may not sell, transfer or otherwise distribute the Licensed Software without
it being incorporated in Licensee's products. Licensee shall ensure that all obligations under this
Agreement are passed on to the third party to which Licensee's products are sold or otherwise
distributed. Licensee may not retain any Licensed Material after the transfer.
(7) More extensive rights, especially concerning the right to use and exploit the Licensed Software, are not
granted to Licensee. The provisions of this Agreement shall be narrowly construed in cases of doubt.
Licensor's copyright of the Software shall not be exhausted by this Agreement.
(8) The Licensed Software may contain code provided by third parties (e.g. open source software or
Microsoft software). Such code is protected by the third parties' intellectual property rights and – for the
benefit of the third parties – subject to the restrictions of this Agreement.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG

§ 3 Purpose of Use
(1) Licensor is licensing the Licensed Software to Licensee for incorporation in Licensee's products. The
Licensed Software is designed to be incorporated in a hardware product, e.g. a manufacturing machine.
Software is not regarded as a product under this Agreement. Therefore, Licensee may not sell, transfer

or otherwise distribute the Licensed Software if it is only combined with or incorporated in a software
product.
(2) Prior to distribution of a product by Licensee that contains Licensed Software, Licensee shall ensure
that the Licensed Software works properly and can be used in connection with its own product; the same
shall apply in the event of the import of updates and the making of adjustments relating to Licensed
Software.
(3) The Licensed Software shall only be used as a single installed instance on one Single Computer System
as defined in § 2 (4). A Single Computer System shall be identified by, among others, its central
processing unit ("CPU"). The use of the Licensed Software is also admitted on a single virtual machine.
Licensee is obliged to provide information on the use of virtual machines upon request. A parallel use
of the Licensed Software by means of cloned virtual machines shall be prohibited.
(4) (4) In the event of a change of CPU or other hardware components or a change of the virtual machine,
the Licensee may have to request new licence keys from the Licensor. Licensee is responsible for
providing the system environment in accordance with system requirements for the use of the Licensed
Software specified by Licensor.
(5) Licensee may connect the Licensed Software to other software (facilitating interoperability). The
Licensed Documentation shall contain a description of the interfaces provided for this purpose.
Otherwise, Licensee shall not modify, translate, or otherwise edit and transform the Licensed Software.
Neither shall Licensee retranslate the software into the form of source programs or other modes of
presentation. Any retranslation of parts the Licensed Software for making an independently developed
program interoperable with the Licensed Software shall be subject to the applicable legal provisions and
of license provisions of code contained under par. 2(8).

(6) Licensor provides with the Licensed Software a tool to enable Licensee to create own software and to
incorporate such software with the Licensed Software in a hardware product. Licensor does not warrant
that the Licensed Software is suitable for any particular purpose. Licensee is obliged to examine the
suitability of the Licensed Software and any software based on or connected with the Licensed Software.
Licensee shall not incorporate the Licensed Software in any hardware product without adequate testing.
§ 4 Protection of Licensed Material
(1) Notwithstanding the Grants of Rights, Licensor shall keep all rights of the Licensed Material, and that
includes any copies or partial copies of any Licensed Material made by or on behalf of Licensee. The
foregoing shall not affect Licensee's property of data storage media, memory devices, and data
processing devices.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(2) Licensee shall leave any notices of intellectual property rights, such as copyright notices and other
reservations of rights unchanged, and it shall adopt such notices without change into any copies made
by Licensee of Licensed Material in whole or in part.
(3) Licensee shall neither make Licensed Material available to third parties in original, nor as complete or
partial copies, without Licensor's express written consent. The same shall apply in the case of complete
or partial sale or dissolution of Licensee's business enterprise. Licensee's employees or other persons
shall not be considered to be third parties while they stay with Licensee in order to make use of Licensed
Material as provided under this Agreement.
(4) License shall not modify or distribute the Licensed Material or parts thereof in a way that the Licensed

Material requires, as a condition of use, modification or distribution, that the code of the Licensed
Software to be disclosed or distributed in source code or others have the right to modify the code of the
Licensed Software.
(5) The Licensed Software is subject to a product activation process. Licensee may use the Licensed
Software for an evaluation ("trial") with respective product trial features before activation. This use of the
trial version may be subject to time or functional restrictions. After expiration of the evaluation, the
Licensed Software can only be used continuously, fully featured, after the product activation process
has been successfully completed.
(6) In order to create license keys necessary for the completion of the product activation process, Licensor
may request certain data from Licensee. Licensee is obliged to answer Licensor's requests in due
course. Licensor may also establish a direct connection between the computer system on which the
Licensed Software is installed and a system operated by or on behalf of Licensor in order to exchange
the necessary data for the product activation process.
(7) In addition to the product activation process, the Licensed Software may be protected by a software
protection measures. If the Licensee uses third party hardware for the execution of the Licensed
Software, the use of a specific software protection measure offered by Licensor may be mandatory.
(8) Licensee may not try to disable or bypass any protection established by Licensor unless explicitly
permitted by mandatory legal provisions.
§ 5 Delivery
(1) Licensor shall deliver the Licensed Software for the exercise of the rights to use and exploit granted to
Licensee herein in machine-readable form at Licensor's sole discretion either stored on a type of data
storage media in common use at the time or by making available the Licensed Software for download.

(2) Licensee shall receive the Licensed Documentation as electronic document unless agreed otherwise.
The Licensed Documentation can, also at Licensor's sole discretion, be stored on the same or a different
data storage medium as the Licensed Software or it can be made available for download.
(3) If Licensed Material is made available for download Licensor shall provide Licensee with all information
necessary to download the Licensed Material, e.g. URL and/or passwords.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,

(4) Insofar as the obligation exists with respect to Third Party Software to make the source code available
with the corresponding Third Party Software, Licensor shall fulfill a corresponding obligation upon
request by providing the source code or making the source code available, for example for download
via a specified link.
§ 6 License Fees
(1) The licensee fees owed by Licensee to Licensor for the grant of rights hereunder are determined by
Licensor based on the software version provided to Licensee.
(2) Licensor will invoice the license fees to Licensee. Invoices are due upon receipt. A payment term is
granted in accordance with the stipulations contained in the invoice. In the event Licensor's affiliate is
involved in the invoicing and/or collection of the fees a payment to or an invoice rendered by such
Licensor's affiliate shall be deemed a payment to or an invoice rendered by Licensor for purposes of
this § 6.
(3) All amounts in this Agreement are stated excluding any applicable Value Added Taxes (VAT) and sales
tax, if any. The current rate of statutory VAT and sales tax shall be invoiced and paid in addition to all
fees as far as applicable. Licensor shall state the rate and amount of VAT separately on the invoice.

§ 7 Warranty

(1) The parties agree that it is not possible to develop software such that it meets all the requirements of
the application without error. Licensor shall make available the Licensed Documentation explaining the
intended use and the conditions of usage of the Licensed Software, which shall always be kept up to
date.

(2) Licensor warrants Licensee that the Licensed Software provided by Licensor is substantially in
accordance with the Licensed Documentation. There can be no claim under this warranty in the case of
minor or immaterial deviations from the agreed or assumed characteristics nor in the case of merely
slight impairment of use. Descriptions given in the Licensed Documentation shall not be deemed
guaranteed unless separately agreed in writing. In respect of updates and modifications, the warranty
shall be limited to the latest version of the software or new features of the update or modification
compared to the previous version release.

Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(3) In case of a significant deviation from the Licensed Documentation, Licensor shall have the right and,
unless this requires unreasonable expenditure and unless it is technically not possible, the duty to
remedy such deviation by improvement, replacement delivery or replacement services. The remedying
of a significant deviation may also take place through the delivery or installation of a new version of the
Licensed Software or a workaround. If Licensor does not succeed in eliminating such significant
deviations from the Licensed Documentation within a period of time of reasonable length or is unable to

avoid such deviations in a manner allowing Licensee a usage of the Licensed Software as provided

under this Agreement, Licensee may demand a reduction of the licensee fees or, if the Licensed

Software is rendered useless for Licensee, it may cancel the license for the Licensed Software without

notice against redemption of the licensee fees.

(4) Licensee shall make verifiable documents concerning the kind and the occurrence of such deviations in

the performance of the Licensed Software available to Licensor, and it shall cooperate in the localization

of defects.

(5) This warranty shall not extend to defects caused by deviating from the conditions intended for the use

of the Licensed Software and explained in the Licensed Documentation.

(6) The warranty period is limited to one (1) year and shall begin on the date of delivery of the Licensed

Material to Licensee. This warranty is exclusive of any warranty claims other than the ones mentioned

under this § 7 and § 8.

(7) The warranty regulations shall not apply for the time of a timely limited trial period, except in cases of

willfully caused malfunctions of the Licensed Software.

§ 8 Liability of Licensor

(1) Licensor shall have unlimited liability in the event of intent and gross negligence of Licensor or Licensor's

agents; in all other respects, liability shall be limited and/or excluded in accordance with the following

provisions.

(2) Licensor shall only be liable for slight negligence of Licensor or Licensor's agents if an obligation which

is of particular importance for realizing the objective of this Agreement is infringed upon (i.e. a material

duty). In this case, liability shall be limited as defined in the following subparagraph; in all other cases,

liability for slight negligence shall be excluded in its entirety.

(3) With regard to the slightly negligent breach of a material duty, liability of Licensor and Licensor's agents

shall be limited to the contractually relevant, foreseeable damage or loss. Licensee shall point out to
Licensor in writing any special risks, any atypical possibilities of sustaining damages and any
extraordinary amounts of damages that may be sustained. Licensor shall, however, be exempted from
any liability for consequential damages, for lack of economic success, for indirect damages, and for
damages resulting from claims of third parties, in particular such damages resulting from the use of the
Licensed Software for the development of other software. The exclusion of liability as defined before
shall not apply insofar as the excluded liability elements are part of the contractual relevant, foreseeable
damage, which the parties do not assume.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(4) Licensor's liability does not include any compensation for damages of a hardware product in which the
Licensed Software is incorporated or caused by such a hardware product. Furthermore, Licensor's
liability under the subparagraph (3) is limited to the maximum amount equal to the license fees for the
Licensed Software.
(5) Licensor shall not be liable beyond the bounds set forth under subparagraph (1) and (2), except for
insufficient quality of the software through Licensor's own fault or through the fault of its agents, but only
if essential functions of the supplied software are affected by such insufficient quality of the software,
and for any other breach or nonperformance of duties essential for the performance of this agreement
through Licensor's own fault or through the fault of its agents.
(6) Licensor shall only be liable for the recovery of data if Licensee has secured the possibility of reproducing

such data at reasonable expenditure and in accordance with the principles of proper data processing
from data provided in machine-readable form.
(7) The same limitations of licensor's liability as set forth under the foregoing subparagraph (2) shall apply
to any culpable breach of duties under this agreement committed by ordinary agents.
(8) Licensor's liability for a breach of guarantees, under the Product Liability Act and for death, personal
injury or damage to health caused by intent or negligence shall remain unaffected by the foregoing
provisions.
§ 9 Intellectual Property Rights of Third Parties
(1) Licensor warrants that it has no present knowledge of an intellectual property right or copyright of a third
party which prevents the use of Licensed Material in accordance with this Agreement.
(2) It is in Licensor's sole discretion to decide if Licensor defends Licensee against claims made for an
infringement of an intellectual property right or copyright caused by the Licensed Material while used as
per this Agreement. Licensee shall notify Licensor without delay of the making of any such claims. If
Licensor does not defend Licensee, Licensee shall be free to defend itself. Licensor shall assist Licensee
in doing so, just as Licensee is under an obligation to assist Licensor.
(3) If claims under subparagraph (2) have been asserted against Licensee, or if such assertions of claims
must be expected, Licensor may modify or replace the Licensed Material at its own expense as far as
this is reasonable for Licensee. Each party to this Agreement may cancel the license without notice if
such modification or replacement cannot be accomplished at a reasonable expenditure, or if a right of
use cannot be obtained at a reasonable expenditure. This notwithstanding, the provisions made under
§ 8 for the limitation of Licensor's liability shall be applicable correspondingly.
§ 10 Conditions of Usage
(1) The License Materials delivered to Licensee have been developed for being used in a specific Computer

System and for the interaction with specific other software. These conditions of usage are set forth in
the performance description.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(2) If the License Materials are used in a manner not complying with the conditions of usage under sub-
paragraph (1) Licensor shall be discharged from any and all warranty obligations under § 7, 8 and 9.
§ 11 Termination, Return and Deletion of License Materials
(1) Licensee may cancel this Agreement as a whole or, if Licensee has acquired more than one license,
with respect to any acquired license in part by giving one month's notice hereof to Licensor.
(2) Licensor shall not cancel this Agreement any sooner than after twelve (12) months for the purpose of a
general revision of the terms and conditions of this Agreement, and it shall give Licensee three months'
notice hereof. If it is not reasonable for Licensee, under the revised terms and conditions after Licensor's
notice of cancellation, to continue using the Licensed Software for which Licensee has paid non-
recurrent license fees, Licensee shall be reimbursed pro rata for the time Licensee could not use the
Licensed Software, the basis for such pro rata reimbursement being the ordinary useful life of the
Licensed Software under tax law. This Agreement is subject to cancellation without notice by either party
for good cause ("wichtiger Grund"); in particular, but not limited thereto, in case of a breach of § 2, 3 and
4.
(3) As soon as a notice takes effect, regardless of its time and reason, Licensee shall return to Licensor the
original and all copies and partial copies of the Licensed Material. As far as the Licensed Software which
is stored on data storage media is concerned, the Licensed Software shall be completely deleted in lieu

of being returned.

(4) If Licensee replaces cancelled software by a successor application offered by Licensor it may keep the

cancelled software for up to three months as a standby reserve. Any further retention of an archival

storage copy shall be subject to a written agreement.

§ 12 Statute of Limitations, Miscellaneous

(1) Any claims made for a breach of § 2, 3 and 4 shall expire no later than six (6) years after their accrual,

any other claims from this Agreement shall expire no later than three (3) years after their accrual, un-

less shorter terms are applicable under the statute of limitations.

(2) Any modification of or supplement of this Agreement shall only be valid if made in writing. This shall also

apply to amendments of this written form requirement.

(3) The parties agree that any disputes arising from this Agreement shall come under the exclusive

jurisdiction of the courts of competent jurisdiction over Verl, Germany. Licensor reserves its right,

however, to file suit against Licensee with the court of competent jurisdiction over Licensee's commercial

domicile.

(4) This Agreement is governed by the Law of the Federal Republic of Germany except for the United

Nations Convention on Contracts for the International Sales of Goods (CSIG).

Software, Licensor clarifies that no rights as author or rights holder are claimed by Licensor in this
respect.

(2) Licensor hereby grants to Licensee the non-exclusive, non-transferable right to use and exploit and the
right to copy the Licensed Material without limitation in time, manner or place subject to the terms and
conditions of this Agreement. With respect to the Licensed Software Licensor grants to Licensee also
the non-exclusive and non-transferable rights to revise and to compile the Licensed Software as far as

mandatory legal provisions prevent Licensor from the exclusion of such right; any further right to revise
or to compile is excluded.
(3) The right to use and exploit is limited to the purposes described in this Agreement, especially the
specified Purpose of Use.
(4) The right to copy the Licensed Software herein is limited to the installation of the Licensed Software on
a Single Computer System which is in Licensee's immediate possession and to fulfill the Purpose of
Use. For the purposes of this Agreement, a Single Computer System means any instance of a computer
on which the Licensed Software can be installed or which can be used to operate the Licensed Software.
In the case of virtualization, each virtualized system is a Single Computer System; a Single Computer
System may include one or more processors with one or more cores. Licensee may copy the Licensed
Software as far as this is required for the loading, display, running, transfer or storage of the Licensed
Software on the Single Computer System after the installation. Furthermore, Licensee is entitled to make
a copy for security backup purposes if and as required by mandatory legal provisions.
(5) The right to use and exploit and the right to copy the Licensed Documentation as a single product are
limited to internal purposes. Licensee may make printouts and/or additional copies provided that these
printouts and/or copies are solely used for internal purposes.
(6) Licensee may transfer the rights granted under this Agreement to a third party provided that the Licensed
Software is incorporated in Licensee's products as described under the Purpose of Use and Licensee's
product is sold or otherwise distributed with the Licensed Software being incorporated. For the
avoidance of doubt, Licensee may not sell, transfer or otherwise distribute the Licensed Software without
it being incorporated in Licensee's products. Licensee shall ensure that all obligations under this

Agreement are passed on to the third party to which Licensee's products are sold or otherwise
distributed. Licensee may not retain any Licensed Material after the transfer.
(7) More extensive rights, especially concerning the right to use and exploit the Licensed Software, are not
granted to Licensee. The provisions of this Agreement shall be narrowly construed in cases of doubt.
Licensor's copyright of the Software shall not be exhausted by this Agreement.
(8) The Licensed Software may contain code provided by third parties (e.g. open source software or
Microsoft software). Such code is protected by the third parties' intellectual property rights and – for the
benefit of the third parties – subject to the restrictions of this Agreement.

§ 3 Purpose of Use
(1) Licensor is licensing the Licensed Software to Licensee for incorporation in Licensee's products. The
Licensed Software is designed to be incorporated in a hardware product, e.g. a manufacturing machine.
Software is not regarded as a product under this Agreement. Therefore, Licensee may not sell, transfer
or otherwise distribute the Licensed Software if it is only combined with or incorporated in a software
product.
(2) Prior to distribution of a product by Licensee that contains Licensed Software, Licensee shall ensure
that the Licensed Software works properly and can be used in connection with its own product; the same
shall apply in the event of the import of updates and the making of adjustments relating to Licensed
Software.
(3) The Licensed Software shall only be used as a single installed instance on one Single Computer System
as defined in § 2 (4). A Single Computer System shall be identified by, among others, its central

processing unit ("CPU"). The use of the Licensed Software is also admitted on a single virtual machine.

Licensee is obliged to provide information on the use of virtual machines upon request. A parallel use

of the Licensed Software by means of cloned virtual machines shall be prohibited.

(4) (4) In the event of a change of CPU or other hardware components or a change of the virtual machine,

the Licensee may have to request new licence keys from the Licensor. Licensee is responsible for

providing the system environment in accordance with system requirements for the use of the Licensed

Software specified by Licensor.

(5) Licensee may connect the Licensed Software to other software (facilitating interoperability). The

Licensed Documentation shall contain a description of the interfaces provided for this purpose.

Otherwise, Licensee shall not modify, translate, or otherwise edit and transform the Licensed Software.

Neither shall Licensee retranslate the software into the form of source programs or other modes of

presentation. Any retranslation of parts the Licensed Software for making an independently developed

program interoperable with the Licensed Software shall be subject to the applicable legal provisions and

of license provisions of code contained under par. 2(8).

(6) Licensor provides with the Licensed Software a tool to enable Licensee to create own software and to

incorporate such software with the Licensed Software in a hardware product. Licensor does not warrant

that the Licensed Software is suitable for any particular purpose. Licensee is obliged to examine the

suitability of the Licensed Software and any software based on or connected with the Licensed Software.

Licensee shall not incorporate the Licensed Software in any hardware product without adequate testing.

§ 4 Protection of Licensed Material

(1) Notwithstanding the Grants of Rights, Licensor shall keep all rights of the Licensed Material, and that

includes any copies or partial copies of any Licensed Material made by or on behalf of Licensee. The
foregoing shall not affect Licensee's property of data storage media, memory devices, and data
processing devices.

(2) Licensee shall leave any notices of intellectual property rights, such as copyright notices and other
reservations of rights unchanged, and it shall adopt such notices without change into any copies made
by Licensee of Licensed Material in whole or in part.
(3) Licensee shall neither make Licensed Material available to third parties in original, nor as complete or
partial copies, without Licensor's express written consent. The same shall apply in the case of complete
or partial sale or dissolution of Licensee's business enterprise. Licensee's employees or other persons
shall not be considered to be third parties while they stay with Licensee in order to make use of Licensed
Material as provided under this Agreement.
(4) License shall not modify or distribute the Licensed Material or parts thereof in a way that the Licensed
Material requires, as a condition of use, modification or distribution, that the code of the Licensed
Software to be disclosed or distributed in source code or others have the right to modify the code of the
Licensed Software.
(5) The Licensed Software is subject to a product activation process. Licensee may use the Licensed
Software for an evaluation ("trial") with respective product trial features before activation. This use of the
trial version may be subject to time or functional restrictions. After expiration of the evaluation, the
Licensed Software can only be used continuously, fully featured, after the product activation process

has been successfully completed.

(6) In order to create license keys necessary for the completion of the product activation process, Licensor
may request certain data from Licensee. Licensee is obliged to answer Licensor's requests in due
course. Licensor may also establish a direct connection between the computer system on which the
Licensed Software is installed and a system operated by or on behalf of Licensor in order to exchange
the necessary data for the product activation process.

(7) In addition to the product activation process, the Licensed Software may be protected by a software
protection measures. If the Licensee uses third party hardware for the execution of the Licensed
Software, the use of a specific software protection measure offered by Licensor may be mandatory.

(8) Licensee may not try to disable or bypass any protection established by Licensor unless explicitly
permitted by mandatory legal provisions.

§ 5 Delivery

(1) Licensor shall deliver the Licensed Software for the exercise of the rights to use and exploit granted to
Licensee herein in machine-readable form at Licensor's sole discretion either stored on a type of data
storage media in common use at the time or by making available the Licensed Software for download.

(2) Licensee shall receive the Licensed Documentation as electronic document unless agreed otherwise.
The Licensed Documentation can, also at Licensor's sole discretion, be stored on the same or a different
data storage medium as the Licensed Software or it can be made available for download.

(3) If Licensed Material is made available for download Licensor shall provide Licensee with all information
necessary to download the Licensed Material, e.g. URL and/or passwords.

(4) Insofar as the obligation exists with respect to Third Party Software to make the source code available
with the corresponding Third Party Software, Licensor shall fulfill a corresponding obligation upon
request by providing the source code or making the source code available, for example for download
via a specified link.

§ 6 License Fees

(1) The licensee fees owed by Licensee to Licensor for the grant of rights hereunder are determined by
Licensor based on the software version provided to Licensee.

(2) Licensor will invoice the license fees to Licensee. Invoices are due upon receipt. A payment term is
granted in accordance with the stipulations contained in the invoice. In the event Licensor's affiliate is
involved in the invoicing and/or collection of the fees a payment to or an invoice rendered by such
Licensor's affiliate shall be deemed a payment to or an invoice rendered by Licensor for purposes of
this § 6.

(3) All amounts in this Agreement are stated excluding any applicable Value Added Taxes (VAT) and sales
tax, if any. The current rate of statutory VAT and sales tax shall be invoiced and paid in addition to all
fees as far as applicable. Licensor shall state the rate and amount of VAT separately on the invoice.

§ 7 Warranty

(1) The parties agree that it is not possible to develop software such that it meets all the requirements of
the application without error. Licensor shall make available the Licensed Documentation explaining the
intended use and the conditions of usage of the Licensed Software, which shall always be kept up to
date.

(2) Licensor warrants Licensee that the Licensed Software provided by Licensor is substantially in
accordance with the Licensed Documentation. There can be no claim under this warranty in the case of

minor or immaterial deviations from the agreed or assumed characteristics nor in the case of merely
slight impairment of use. Descriptions given in the Licensed Documentation shall not be deemed
guaranteed unless separately agreed in writing. In respect of updates and modifications, the warranty
shall be limited to the latest version of the software or new features of the update or modification
compared to the previous version release.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,

(3) In case of a significant deviation from the Licensed Documentation, Licensor shall have the right and,
unless this requires unreasonable expenditure and unless it is technically not possible, the duty to
remedy such deviation by improvement, replacement delivery or replacement services. The remedying
of a significant deviation may also take place through the delivery or installation of a new version of the
Licensed Software or a workaround. If Licensor does not succeed in eliminating such significant
deviations from the Licensed Documentation within a period of time of reasonable length or is unable to
avoid such deviations in a manner allowing Licensee a usage of the Licensed Software as provided
under this Agreement, Licensee may demand a reduction of the licensee fees or, if the Licensed
Software is rendered useless for Licensee, it may cancel the license for the Licensed Software without
notice against redemption of the licensee fees.
(4) Licensee shall make verifiable documents concerning the kind and the occurrence of such deviations in
the performance of the Licensed Software available to Licensor, and it shall cooperate in the localization
of defects.

(5) This warranty shall not extend to defects caused by deviating from the conditions intended for the use
of the Licensed Software and explained in the Licensed Documentation.
(6) The warranty period is limited to one (1) year and shall begin on the date of delivery of the Licensed
Material to Licensee. This warranty is exclusive of any warranty claims other than the ones mentioned
under this § 7 and § 8.
(7) The warranty regulations shall not apply for the time of a timely limited trial period, except in cases of
willfully caused malfunctions of the Licensed Software.
§ 8 Liability of Licensor
(1) Licensor shall have unlimited liability in the event of intent and gross negligence of Licensor or Licensor's
agents; in all other respects, liability shall be limited and/or excluded in accordance with the following
provisions.
(2) Licensor shall only be liable for slight negligence of Licensor or Licensor's agents if an obligation which
is of particular importance for realizing the objective of this Agreement is infringed upon (i.e. a material
duty). In this case, liability shall be limited as defined in the following subparagraph; in all other cases,
liability for slight negligence shall be excluded in its entirety.
(3) With regard to the slightly negligent breach of a material duty, liability of Licensor and Licensor's agents
shall be limited to the contractually relevant, foreseeable damage or loss. Licensee shall point out to
Licensor in writing any special risks, any atypical possibilities of sustaining damages and any
extraordinary amounts of damages that may be sustained. Licensor shall, however, be exempted from
any liability for consequential damages, for lack of economic success, for indirect damages, and for
damages resulting from claims of third parties, in particular such damages resulting from the use of the
Licensed Software for the development of other software. The exclusion of liability as defined before

shall not apply insofar as the excluded liability elements are part of the contractual relevant, foreseeable
damage, which the parties do not assume.

between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,

(4) Licensor's liability does not include any compensation for damages of a hardware product in which the
Licensed Software is incorporated or caused by such a hardware product. Furthermore, Licensor's
liability under the subparagraph (3) is limited to the maximum amount equal to the license fees for the
Licensed Software.
(5) Licensor shall not be liable beyond the bounds set forth under subparagraph (1) and (2), except for
insufficient quality of the software through Licensor's own fault or through the fault of its agents, but only
if essential functions of the supplied software are affected by such insufficient quality of the software,
and for any other breach or nonperformance of duties essential for the performance of this agreement
through Licensor's own fault or through the fault of its agents.
(6) Licensor shall only be liable for the recovery of data if Licensee has secured the possibility of reproducing
such data at reasonable expenditure and in accordance with the principles of proper data processing
from data provided in machine-readable form.
(7) The same limitations of licensor's liability as set forth under the foregoing subparagraph (2) shall apply
to any culpable breach of duties under this agreement committed by ordinary agents.
(8) Licensor's liability for a breach of guarantees, under the Product Liability Act and for death, personal
injury or damage to health caused by intent or negligence shall remain unaffected by the foregoing
provisions.
§ 9 Intellectual Property Rights of Third Parties

(1) Licensor warrants that it has no present knowledge of an intellectual property right or copyright of a third
party which prevents the use of Licensed Material in accordance with this Agreement.
(2) It is in Licensor's sole discretion to decide if Licensor defends Licensee against claims made for an
infringement of an intellectual property right or copyright caused by the Licensed Material while used as
per this Agreement. Licensee shall notify Licensor without delay of the making of any such claims. If
Licensor does not defend Licensee, Licensee shall be free to defend itself. Licensor shall assist Licensee
in doing so, just as Licensee is under an obligation to assist Licensor.
(3) If claims under subparagraph (2) have been asserted against Licensee, or if such assertions of claims
must be expected, Licensor may modify or replace the Licensed Material at its own expense as far as
this is reasonable for Licensee. Each party to this Agreement may cancel the license without notice if
such modification or replacement cannot be accomplished at a reasonable expenditure, or if a right of
use cannot be obtained at a reasonable expenditure. This notwithstanding, the provisions made under
§ 8 for the limitation of Licensor's liability shall be applicable correspondingly.
§ 10 Conditions of Usage
(1) The License Materials delivered to Licensee have been developed for being used in a specific Computer
System and for the interaction with specific other software. These conditions of usage are set forth in
the performance description.
Software License Agreement for Beckhoff Software Products

and LICENSEE

(2) If the License Materials are used in a manner not complying with the conditions of usage under sub-
paragraph (1) Licensor shall be discharged from any and all warranty obligations under § 7, 8 and 9.
§ 11 Termination, Return and Deletion of License Materials

(1) Licensee may cancel this Agreement as a whole or, if Licensee has acquired more than one license,
with respect to any acquired license in part by giving one month's notice hereof to Licensor.
(2) Licensor shall not cancel this Agreement any sooner than after twelve (12) months for the purpose of a
general revision of the terms and conditions of this Agreement, and it shall give Licensee three months'
notice hereof. If it is not reasonable for Licensee, under the revised terms and conditions after Licensor's
notice of cancellation, to continue using the Licensed Software for which Licensee has paid non-
recurrent license fees, Licensee shall be reimbursed pro rata for the time Licensee could not use the
Licensed Software, the basis for such pro rata reimbursement being the ordinary useful life of the
Licensed Software under tax law. This Agreement is subject to cancellation without notice by either party
for good cause ("wichtiger Grund"); in particular, but not limited thereto, in case of a breach of § 2, 3 and
4.
(3) As soon as a notice takes effect, regardless of its time and reason, Licensee shall return to Licensor the
original and all copies and partial copies of the Licensed Material. As far as the Licensed Software which
is stored on data storage media is concerned, the Licensed Software shall be completely deleted in lieu
of being returned.
(4) If Licensee replaces cancelled software by a successor application offered by Licensor it may keep the
cancelled software for up to three months as a standby reserve. Any further retention of an archival
storage copy shall be subject to a written agreement.
§ 12 Statute of Limitations, Miscellaneous
(1) Any claims made for a breach of § 2, 3 and 4 shall expire no later than six (6) years after their accrual,
any other claims from this Agreement shall expire no later than three (3) years after their accrual, un-
less shorter terms are applicable under the statute of limitations.

(2) Any modification of or supplement of this Agreement shall only be valid if made in writing. This shall also
apply to amendments of this written form requirement.
(3) The parties agree that any disputes arising from this Agreement shall come under the exclusive
jurisdiction of the courts of competent jurisdiction over Verl, Germany. Licensor reserves its right,
however, to file suit against Licensee with the court of competent jurisdiction over Licensee's commercial
domicile.
(4) This Agreement is governed by the Law of the Federal Republic of Germany except for the United
Nations Convention on Contracts for the International Sales of Goods (CSIG).

§ 1 Scope of this Agreement
(1) Licensor has agreed with Licensee to grant Licensee a license to use and exploit the software set out
in the software license purchase agreement or in connection with the download link ("Licensed
Software") subject to the terms and conditions of this Software License Agreement ("Agreement").

(2) Licensor points out that Licensed Software may also contain components that do not originate from
Licensor but from third parties ("Third Party Software"). Third Party Software may be part of the Licensed
Software, whereby with respect to Third Party Software only the respective license terms of the Third
Party shall apply. Third Party Software may be software that is freely available under an open source
license or software that is provided by a third party under its own license. As far as required Licensor
shall provide Licensee with an overview of which components are considered Third Party Software and
which conditions apply to them. Licensor may also provide Third Party Software that can be used
together with Licensed Software, such as optional add-ons. In such cases, Third Party Software is not
part of the Licensed Software, so that use is independent of the Licensed Software and the terms and
conditions applicable thereto. For the avoidance of doubt, Third Party Software that is incorporated into
the Licensed Software (i.e., not provided separately) is part of the Licensed Software, but not subject to
the terms and conditions of this Agreement. Third Party Software that is provided together with the
Licensed Software (i.e., provided separately) is not part of the Licensed Software. In both cases, the
respective terms and conditions for the relevant Third Party Software always apply.
(3) Licensor shall also grant Licensee access to user documentation for the Licensed Software ("Licensed
Documentation"). The Licensed Software and the Licensed Documentation are jointly referred to as
"Licensed Material". Any data (e.g. files, data base materials) which is provided by Licensor in
connection with the Licensed Software or the Licensed Documentation is also part of the Licensed
Material.
(4) Any updates for and modifications of the Licensed Material provided by the Licensor during the term of

this Agreement will also be provided subject to the terms and conditions of this Agreement, regardless
of the fact whether or not such updates or modifications are free of charge and regardless whether or
not Licensor explicitly refers to this Agreement.
§ 2 Grant of Rights; Restrictions
(1) Licensee acknowledges that Licensor is the sole owner of all rights in and all know-how pertaining to
the Licensed Material except as for Third-Party Software. Licensee shall forbear to attack those rights
and will adequately inform third parties of Licensor's ownership of those rights. Regarding Third Party
Software, Licensor clarifies that no rights as author or rights holder are claimed by Licensor in this
respect.

(2) Licensor hereby grants to Licensee the non-exclusive, non-transferable right to use and exploit and the
right to copy the Licensed Material without limitation in time, manner or place subject to the terms and
conditions of this Agreement. With respect to the Licensed Software Licensor grants to Licensee also
the non-exclusive and non-transferable rights to revise and to compile the Licensed Software as far as
mandatory legal provisions prevent Licensor from the exclusion of such right; any further right to revise
or to compile is excluded.
(3) The right to use and exploit is limited to the purposes described in this Agreement, especially the
specified Purpose of Use.
(4) The right to copy the Licensed Software herein is limited to the installation of the Licensed Software on

Software on the Single Computer System after the installation. Furthermore, Licensee is entitled to make
a copy for security backup purposes if and as required by mandatory legal provisions.
(5) The right to use and exploit and the right to copy the Licensed Documentation as a single product are
limited to internal purposes. Licensee may make printouts and/or additional copies provided that these
printouts and/or copies are solely used for internal purposes.
(6) Licensee may transfer the rights granted under this Agreement to a third party provided that the Licensed
Software is incorporated in Licensee's products as described under the Purpose of Use and Licensee's
product is sold or otherwise distributed with the Licensed Software being incorporated. For the
avoidance of doubt, Licensee may not sell, transfer or otherwise distribute the Licensed Software without
it being incorporated in Licensee's products. Licensee shall ensure that all obligations under this
Agreement are passed on to the third party to which Licensee's products are sold or otherwise
distributed. Licensee may not retain any Licensed Material after the transfer.
(7) More extensive rights, especially concerning the right to use and exploit the Licensed Software, are not
granted to Licensee. The provisions of this Agreement shall be narrowly construed in cases of doubt.

§ 7 Warranty

(1) The parties agree that it is not possible to develop software such that it meets all the requirements of
the application without error. Licensor shall make available the Licensed Documentation explaining the
intended use and the conditions of usage of the Licensed Software, which shall always be kept up to
date.

(2) Licensor warrants Licensee that the Licensed Software provided by Licensor is substantially in
accordance with the Licensed Documentation. There can be no claim under this warranty in the case of
minor or immaterial deviations from the agreed or assumed characteristics nor in the case of merely
slight impairment of use. Descriptions given in the Licensed Documentation shall not be deemed
guaranteed unless separately agreed in writing. In respect of updates and modifications, the warranty
shall be limited to the latest version of the software or new features of the update or modification
compared to the previous version release.

between BECKHOFF Automation GmbH & Co. KG

(3) In case of a significant deviation from the Licensed Documentation, Licensor shall have the right and,
unless this requires unreasonable expenditure and unless it is technically not possible, the duty to
remedy such deviation by improvement, replacement delivery or replacement services. The remedying
of a significant deviation may also take place through the delivery or installation of a new version of the
Licensed Software or a workaround. If Licensor does not succeed in eliminating such significant
deviations from the Licensed Documentation within a period of time of reasonable length or is unable to
avoid such deviations in a manner allowing Licensee a usage of the Licensed Software as provided
under this Agreement, Licensee may demand a reduction of the licensee fees or, if the Licensed
Software is rendered useless for Licensee, it may cancel the license for the Licensed Software without
notice against redemption of the licensee fees.
(4) Licensee shall make verifiable documents concerning the kind and the occurrence of such deviations in
the performance of the Licensed Software available to Licensor, and it shall cooperate in the localization
of defects.
(5) This warranty shall not extend to defects caused by deviating from the conditions intended for the use
of the Licensed Software and explained in the Licensed Documentation.
(6) The warranty period is limited to one (1) year and shall begin on the date of delivery of the Licensed
Material to Licensee. This warranty is exclusive of any warranty claims other than the ones mentioned
under this § 7 and § 8.
(7) The warranty regulations shall not apply for the time of a timely limited trial period, except in cases of
willfully caused malfunctions of the Licensed Software.
§ 8 Liability of Licensor

(1) Licensor shall have unlimited liability in the event of intent and gross negligence of Licensor or Licensor's
agents; in all other respects, liability shall be limited and/or excluded in accordance with the following
provisions.
(2) Licensor shall only be liable for slight negligence of Licensor or Licensor's agents if an obligation which
is of particular importance for realizing the objective of this Agreement is infringed upon (i.e. a material
duty). In this case, liability shall be limited as defined in the following subparagraph; in all other cases,
liability for slight negligence shall be excluded in its entirety.
(3) With regard to the slightly negligent breach of a material duty, liability of Licensor and Licensor's agents
shall be limited to the contractually relevant, foreseeable damage or loss. Licensee shall point out to
Licensor in writing any special risks, any atypical possibilities of sustaining damages and any
extraordinary amounts of damages that may be sustained. Licensor shall, however, be exempted from
any liability for consequential damages, for lack of economic success, for indirect damages, and for
damages resulting from claims of third parties, in particular such damages resulting from the use of the
Licensed Software for the development of other software. The exclusion of liability as defined before
shall not apply insofar as the excluded liability elements are part of the contractual relevant, foreseeable
damage, which the parties do not assume.

between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,

(4) Licensor's liability does not include any compensation for damages of a hardware product in which the
Licensed Software is incorporated or caused by such a hardware product. Furthermore, Licensor's

liability under the subparagraph (3) is limited to the maximum amount equal to the license fees for the
Licensed Software.
(5) Licensor shall not be liable beyond the bounds set forth under subparagraph (1) and (2), except for
insufficient quality of the software through Licensor's own fault or through the fault of its agents, but only
if essential functions of the supplied software are affected by such insufficient quality of the software,
and for any other breach or nonperformance of duties essential for the performance of this agreement
through Licensor's own fault or through the fault of its agents.
(6) Licensor shall only be liable for the recovery of data if Licensee has secured the possibility of reproducing
such data at reasonable expenditure and in accordance with the principles of proper data processing
from data provided in machine-readable form.
(7) The same limitations of licensor's liability as set forth under the foregoing subparagraph (2) shall apply
to any culpable breach of duties under this agreement committed by ordinary agents.
(8) Licensor's liability for a breach of guarantees, under the Product Liability Act and for death, personal
injury or damage to health caused by intent or negligence shall remain unaffected by the foregoing
provisions.
§ 9 Intellectual Property Rights of Third Parties
(1) Licensor warrants that it has no present knowledge of an intellectual property right or copyright of a third
party which prevents the use of Licensed Material in accordance with this Agreement.
(2) It is in Licensor's sole discretion to decide if Licensor defends Licensee against claims made for an
infringement of an intellectual property right or copyright caused by the Licensed Material while used as
per this Agreement. Licensee shall notify Licensor without delay of the making of any such claims. If
Licensor does not defend Licensee, Licensee shall be free to defend itself. Licensor shall assist Licensee
in doing so, just as Licensee is under an obligation to assist Licensor.

(3) If claims under subparagraph (2) have been asserted against Licensee, or if such assertions of claims
must be expected, Licensor may modify or replace the Licensed Material at its own expense as far as
this is reasonable for Licensee. Each party to this Agreement may cancel the license without notice if
such modification or replacement cannot be accomplished at a reasonable expenditure, or if a right of
use cannot be obtained at a reasonable expenditure. This notwithstanding, the provisions made under
§ 8 for the limitation of Licensor's liability shall be applicable correspondingly.
§ 10 Conditions of Usage
(1) The License Materials delivered to Licensee have been developed for being used in a specific Computer
System and for the interaction with specific other software. These conditions of usage are set forth in
the performance description.

(2) If the License Materials are used in a manner not complying with the conditions of usage under sub-
paragraph (1) Licensor shall be discharged from any and all warranty obligations under § 7, 8 and 9.
§ 11 Termination, Return and Deletion of License Materials
(1) Licensee may cancel this Agreement as a whole or, if Licensee has acquired more than one license,
with respect to any acquired license in part by giving one month's notice hereof to Licensor.
(2) Licensor shall not cancel this Agreement any sooner than after twelve (12) months for the purpose of a
general revision of the terms and conditions of this Agreement, and it shall give Licensee three months'
notice hereof. If it is not reasonable for Licensee, under the revised terms and conditions after Licensor's
notice of cancellation, to continue using the Licensed Software for which Licensee has paid non-

recurrent license fees, Licensee shall be reimbursed pro rata for the time Licensee could not use the
Licensed Software, the basis for such pro rata reimbursement being the ordinary useful life of the
Licensed Software under tax law. This Agreement is subject to cancellation without notice by either party
for good cause ("wichtiger Grund"); in particular, but not limited thereto, in case of a breach of § 2, 3 and
4.
(3) As soon as a notice takes effect, regardless of its time and reason, Licensee shall return to Licensor the
original and all copies and partial copies of the Licensed Material. As far as the Licensed Software which
is stored on data storage media is concerned, the Licensed Software shall be completely deleted in lieu
of being returned.
(4) If Licensee replaces cancelled software by a successor application offered by Licensor it may keep the
cancelled software for up to three months as a standby reserve. Any further retention of an archival
storage copy shall be subject to a written agreement.
§ 12 Statute of Limitations, Miscellaneous
(1) Any claims made for a breach of § 2, 3 and 4 shall expire no later than six (6) years after their accrual,
any other claims from this Agreement shall expire no later than three (3) years after their accrual, un-
less shorter terms are applicable under the statute of limitations.
(2) Any modification of or supplement of this Agreement shall only be valid if made in writing. This shall also
apply to amendments of this written form requirement.
(3) The parties agree that any disputes arising from this Agreement shall come under the exclusive
jurisdiction of the courts of competent jurisdiction over Verl, Germany. Licensor reserves its right,
however, to file suit against Licensee with the court of competent jurisdiction over Licensee's commercial
domicile.
(4) This Agreement is governed by the Law of the Federal Republic of Germany except for the United

Nations Convention on Contracts for the International Sales of Goods (CSIG).

Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

§ 1 Scope of this Agreement
(1) Licensor has agreed with Licensee to grant Licensee a license to use and exploit the software set out
in the software license purchase agreement or in connection with the download link ("Licensed
Software") subject to the terms and conditions of this Software License Agreement ("Agreement").
(2) Licensor points out that Licensed Software may also contain components that do not originate from
Licensor but from third parties ("Third Party Software"). Third Party Software may be part of the Licensed
Software, whereby with respect to Third Party Software only the respective license terms of the Third
Party shall apply. Third Party Software may be software that is freely available under an open source
license or software that is provided by a third party under its own license. As far as required Licensor
shall provide Licensee with an overview of which components are considered Third Party Software and

which conditions apply to them. Licensor may also provide Third Party Software that can be used
together with Licensed Software, such as optional add-ons. In such cases, Third Party Software is not
part of the Licensed Software, so that use is independent of the Licensed Software and the terms and
conditions applicable thereto. For the avoidance of doubt, Third Party Software that is incorporated into
the Licensed Software (i.e., not provided separately) is part of the Licensed Software, but not subject to
the terms and conditions of this Agreement. Third Party Software that is provided together with the
Licensed Software (i.e., provided separately) is not part of the Licensed Software. In both cases, the
respective terms and conditions for the relevant Third Party Software always apply.
(3) Licensor shall also grant Licensee access to user documentation for the Licensed Software ("Licensed
Documentation"). The Licensed Software and the Licensed Documentation are jointly referred to as
"Licensed Material". Any data (e.g. files, data base materials) which is provided by Licensor in
connection with the Licensed Software or the Licensed Documentation is also part of the Licensed
Material.
(4) Any updates for and modifications of the Licensed Material provided by the Licensor during the term of
this Agreement will also be provided subject to the terms and conditions of this Agreement, regardless
of the fact whether or not such updates or modifications are free of charge and regardless whether or
not Licensor explicitly refers to this Agreement.
§ 2 Grant of Rights; Restrictions
(1) Licensee acknowledges that Licensor is the sole owner of all rights in and all know-how pertaining to
the Licensed Material except as for Third-Party Software. Licensee shall forbear to attack those rights
and will adequately inform third parties of Licensor's ownership of those rights. Regarding Third Party

Software, Licensor clarifies that no rights as author or rights holder are claimed by Licensor in this
respect.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG

and LICENSEE

(2) Licensor hereby grants to Licensee the non-exclusive, non-transferable right to use and exploit and the
right to copy the Licensed Material without limitation in time, manner or place subject to the terms and
conditions of this Agreement. With respect to the Licensed Software Licensor grants to Licensee also
the non-exclusive and non-transferable rights to revise and to compile the Licensed Software as far as
mandatory legal provisions prevent Licensor from the exclusion of such right; any further right to revise
or to compile is excluded.
(3) The right to use and exploit is limited to the purposes described in this Agreement, especially the
specified Purpose of Use.
(4) The right to copy the Licensed Software herein is limited to the installation of the Licensed Software on
a Single Computer System which is in Licensee's immediate possession and to fulfill the Purpose of
Use. For the purposes of this Agreement, a Single Computer System means any instance of a computer
on which the Licensed Software can be installed or which can be used to operate the Licensed Software.
In the case of virtualization, each virtualized system is a Single Computer System; a Single Computer
System may include one or more processors with one or more cores. Licensee may copy the Licensed
Software as far as this is required for the loading, display, running, transfer or storage of the Licensed
Software on the Single Computer System after the installation. Furthermore, Licensee is entitled to make
a copy for security backup purposes if and as required by mandatory legal provisions.

(5) The right to use and exploit and the right to copy the Licensed Documentation as a single product are
limited to internal purposes. Licensee may make printouts and/or additional copies provided that these
printouts and/or copies are solely used for internal purposes.
(6) Licensee may transfer the rights granted under this Agreement to a third party provided that the Licensed
Software is incorporated in Licensee's products as described under the Purpose of Use and Licensee's
product is sold or otherwise distributed with the Licensed Software being incorporated. For the
avoidance of doubt, Licensee may not sell, transfer or otherwise distribute the Licensed Software without
it being incorporated in Licensee's products. Licensee shall ensure that all obligations under this
Agreement are passed on to the third party to which Licensee's products are sold or otherwise
distributed. Licensee may not retain any Licensed Material after the transfer.
(7) More extensive rights, especially concerning the right to use and exploit the Licensed Software, are not
granted to Licensee. The provisions of this Agreement shall be narrowly construed in cases of doubt.
Licensor's copyright of the Software shall not be exhausted by this Agreement.
(8) The Licensed Software may contain code provided by third parties (e.g. open source software or
Microsoft software). Such code is protected by the third parties' intellectual property rights and – for the
benefit of the third parties – subject to the restrictions of this Agreement.

between BECKHOFF Automation GmbH & Co. KG

§ 3 Purpose of Use
(1) Licensor is licensing the Licensed Software to Licensee for incorporation in Licensee's products. The
Licensed Software is designed to be incorporated in a hardware product, e.g. a manufacturing machine.

Software is not regarded as a product under this Agreement. Therefore, Licensee may not sell, transfer
or otherwise distribute the Licensed Software if it is only combined with or incorporated in a software
product.
(2) Prior to distribution of a product by Licensee that contains Licensed Software, Licensee shall ensure
that the Licensed Software works properly and can be used in connection with its own product; the same
shall apply in the event of the import of updates and the making of adjustments relating to Licensed
Software.
(3) The Licensed Software shall only be used as a single installed instance on one Single Computer System
as defined in § 2 (4). A Single Computer System shall be identified by, among others, its central
processing unit ("CPU"). The use of the Licensed Software is also admitted on a single virtual machine.
Licensee is obliged to provide information on the use of virtual machines upon request. A parallel use
of the Licensed Software by means of cloned virtual machines shall be prohibited.
(4) (4) In the event of a change of CPU or other hardware components or a change of the virtual machine,
the Licensee may have to request new licence keys from the Licensor. Licensee is responsible for
providing the system environment in accordance with system requirements for the use of the Licensed
Software specified by Licensor.
(5) Licensee may connect the Licensed Software to other software (facilitating interoperability). The
Licensed Documentation shall contain a description of the interfaces provided for this purpose.
Otherwise, Licensee shall not modify, translate, or otherwise edit and transform the Licensed Software.
Neither shall Licensee retranslate the software into the form of source programs or other modes of
presentation. Any retranslation of parts the Licensed Software for making an independently developed

program interoperable with the Licensed Software shall be subject to the applicable legal provisions and
of license provisions of code contained under par. 2(8).
(6) Licensor provides with the Licensed Software a tool to enable Licensee to create own software and to
incorporate such software with the Licensed Software in a hardware product. Licensor does not warrant
that the Licensed Software is suitable for any particular purpose. Licensee is obliged to examine the
suitability of the Licensed Software and any software based on or connected with the Licensed Software.
Licensee shall not incorporate the Licensed Software in any hardware product without adequate testing.
§ 4 Protection of Licensed Material
(1) Notwithstanding the Grants of Rights, Licensor shall keep all rights of the Licensed Material, and that
includes any copies or partial copies of any Licensed Material made by or on behalf of Licensee. The
foregoing shall not affect Licensee's property of data storage media, memory devices, and data
processing devices.
Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,
and LICENSEE

(2) Licensee shall leave any notices of intellectual property rights, such as copyright notices and other
reservations of rights unchanged, and it shall adopt such notices without change into any copies made
by Licensee of Licensed Material in whole or in part.
(3) Licensee shall neither make Licensed Material available to third parties in original, nor as complete or
partial copies, without Licensor's express written consent. The same shall apply in the case of complete
or partial sale or dissolution of Licensee's business enterprise. Licensee's employees or other persons
shall not be considered to be third parties while they stay with Licensee in order to make use of Licensed

Material as provided under this Agreement.

(4) License shall not modify or distribute the Licensed Material or parts thereof in a way that the Licensed
Material requires, as a condition of use, modification or distribution, that the code of the Licensed
Software to be disclosed or distributed in source code or others have the right to modify the code of the
Licensed Software.

(5) The Licensed Software is subject to a product activation process. Licensee may use the Licensed
Software for an evaluation ("trial") with respective product trial features before activation. This use of the
trial version may be subject to time or functional restrictions. After expiration of the evaluation, the
Licensed Software can only be used continuously, fully featured, after the product activation process
has been successfully completed.

(6) In order to create license keys necessary for the completion of the product activation process, Licensor
may request certain data from Licensee. Licensee is obliged to answer Licensor's requests in due
course. Licensor may also establish a direct connection between the computer system on which the
Licensed Software is installed and a system operated by or on behalf of Licensor in order to exchange
the necessary data for the product activation process.

(7) In addition to the product activation process, the Licensed Software may be protected by a software
protection measures. If the Licensee uses third party hardware for the execution of the Licensed
Software, the use of a specific software protection measure offered by Licensor may be mandatory.

(8) Licensee may not try to disable or bypass any protection established by Licensor unless explicitly
permitted by mandatory legal provisions.

§ 5 Delivery

(1) Licensor shall deliver the Licensed Software for the exercise of the rights to use and exploit granted to

Licensee herein in machine-readable form at Licensor's sole discretion either stored on a type of data
storage media in common use at the time or by making available the Licensed Software for download.
(2) Licensee shall receive the Licensed Documentation as electronic document unless agreed otherwise.
The Licensed Documentation can, also at Licensor's sole discretion, be stored on the same or a different
data storage medium as the Licensed Software or it can be made available for download.
(3) If Licensed Material is made available for download Licensor shall provide Licensee with all information
necessary to download the Licensed Material, e.g. URL and/or passwords.

between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,

(4) Insofar as the obligation exists with respect to Third Party Software to make the source code available
with the corresponding Third Party Software, Licensor shall fulfill a corresponding obligation upon
request by providing the source code or making the source code available, for example for download
via a specified link.
§ 6 License Fees
(1) The licensee fees owed by Licensee to Licensor for the grant of rights hereunder are determined by
Licensor based on the software version provided to Licensee.
(2) Licensor will invoice the license fees to Licensee. Invoices are due upon receipt. A payment term is
granted in accordance with the stipulations contained in the invoice. In the event Licensor's affiliate is
involved in the invoicing and/or collection of the fees a payment to or an invoice rendered by such
Licensor's affiliate shall be deemed a payment to or an invoice rendered by Licensor for purposes of
this § 6.
(3) All amounts in this Agreement are stated excluding any applicable Value Added Taxes (VAT) and sales

tax, if any. The current rate of statutory VAT and sales tax shall be invoiced and paid in addition to all
fees as far as applicable. Licensor shall state the rate and amount of VAT separately on the invoice.
§ 7 Warranty
(1) The parties agree that it is not possible to develop software such that it meets all the requirements of
the application without error. Licensor shall make available the Licensed Documentation explaining the
intended use and the conditions of usage of the Licensed Software, which shall always be kept up to
date.
(2) Licensor warrants Licensee that the Licensed Software provided by Licensor is substantially in
accordance with the Licensed Documentation. There can be no claim under this warranty in the case of
minor or immaterial deviations from the agreed or assumed characteristics nor in the case of merely
slight impairment of use. Descriptions given in the Licensed Documentation shall not be deemed
guaranteed unless separately agreed in writing. In respect of updates and modifications, the warranty
shall be limited to the latest version of the software or new features of the update or modification
compared to the previous version release.

(3) In case of a significant deviation from the Licensed Documentation, Licensor shall have the right and,
unless this requires unreasonable expenditure and unless it is technically not possible, the duty to
remedy such deviation by improvement, replacement delivery or replacement services. The remedying
of a significant deviation may also take place through the delivery or installation of a new version of the

Licensed Software or a workaround. If Licensor does not succeed in eliminating such significant
deviations from the Licensed Documentation within a period of time of reasonable length or is unable to
avoid such deviations in a manner allowing Licensee a usage of the Licensed Software as provided
under this Agreement, Licensee may demand a reduction of the licensee fees or, if the Licensed
Software is rendered useless for Licensee, it may cancel the license for the Licensed Software without
notice against redemption of the licensee fees.
(4) Licensee shall make verifiable documents concerning the kind and the occurrence of such deviations in
the performance of the Licensed Software available to Licensor, and it shall cooperate in the localization
of defects.
(5) This warranty shall not extend to defects caused by deviating from the conditions intended for the use
of the Licensed Software and explained in the Licensed Documentation.
(6) The warranty period is limited to one (1) year and shall begin on the date of delivery of the Licensed
Material to Licensee. This warranty is exclusive of any warranty claims other than the ones mentioned
under this § 7 and § 8.
(7) The warranty regulations shall not apply for the time of a timely limited trial period, except in cases of
willfully caused malfunctions of the Licensed Software.
§ 8 Liability of Licensor
(1) Licensor shall have unlimited liability in the event of intent and gross negligence of Licensor or Licensor's
agents; in all other respects, liability shall be limited and/or excluded in accordance with the following
provisions.
(2) Licensor shall only be liable for slight negligence of Licensor or Licensor's agents if an obligation which
is of particular importance for realizing the objective of this Agreement is infringed upon (i.e. a material
duty). In this case, liability shall be limited as defined in the following subparagraph; in all other cases,

liability for slight negligence shall be excluded in its entirety.

(3) With regard to the slightly negligent breach of a material duty, liability of Licensor and Licensor's agents
shall be limited to the contractually relevant, foreseeable damage or loss. Licensee shall point out to

damage, which the parties do not assume.

(4) Licensor's liability does not include any compensation for damages of a hardware product in which the
Licensed Software is incorporated or caused by such a hardware product. Furthermore, Licensor's
liability under the subparagraph (3) is limited to the maximum amount equal to the license fees for the
Licensed Software.

(5) Licensor shall not be liable beyond the bounds set forth under subparagraph (1) and (2), except for
insufficient quality of the software through Licensor's own fault or through the fault of its agents, but only
if essential functions of the supplied software are affected by such insufficient quality of the software,
and for any other breach or nonperformance of duties essential for the performance of this agreement
through Licensor's own fault or through the fault of its agents.

(6) Licensor shall only be liable for the recovery of data if Licensee has secured the possibility of reproducing
such data at reasonable expenditure and in accordance with the principles of proper data processing
from data provided in machine-readable form.
(7) The same limitations of licensor's liability as set forth under the foregoing subparagraph (2) shall apply
to any culpable breach of duties under this agreement committed by ordinary agents.
(8) Licensor's liability for a breach of guarantees, under the Product Liability Act and for death, personal
injury or damage to health caused by intent or negligence shall remain unaffected by the foregoing
provisions.
§ 9 Intellectual Property Rights of Third Parties
(1) Licensor warrants that it has no present knowledge of an intellectual property right or copyright of a third
party which prevents the use of Licensed Material in accordance with this Agreement.
(2) It is in Licensor's sole discretion to decide if Licensor defends Licensee against claims made for an
infringement of an intellectual property right or copyright caused by the Licensed Material while used as
per this Agreement. Licensee shall notify Licensor without delay of the making of any such claims. If
Licensor does not defend Licensee, Licensee shall be free to defend itself. Licensor shall assist Licensee
in doing so, just as Licensee is under an obligation to assist Licensor.
(3) If claims under subparagraph (2) have been asserted against Licensee, or if such assertions of claims
must be expected, Licensor may modify or replace the Licensed Material at its own expense as far as
this is reasonable for Licensee. Each party to this Agreement may cancel the license without notice if
such modification or replacement cannot be accomplished at a reasonable expenditure, or if a right of
use cannot be obtained at a reasonable expenditure. This notwithstanding, the provisions made under
§ 8 for the limitation of Licensor's liability shall be applicable correspondingly.

paragraph (1) Licensor shall be discharged from any and all warranty obligations under § 7, 8 and 9.

(1) Licensee may cancel this Agreement as a whole or, if Licensee has acquired more than one license,
with respect to any acquired license in part by giving one month's notice hereof to Licensor.
(2) Licensor shall not cancel this Agreement any sooner than after twelve (12) months for the purpose of a

Licensor but from third parties ("Third Party Software"). Third Party Software may be part of the Licensed
Software, whereby with respect to Third Party Software only the respective license terms of the Third
Party shall apply. Third Party Software may be software that is freely available under an open source
license or software that is provided by a third party under its own license. As far as required Licensor
shall provide Licensee with an overview of which components are considered Third Party Software and
which conditions apply to them. Licensor may also provide Third Party Software that can be used
together with Licensed Software, such as optional add-ons. In such cases, Third Party Software is not
part of the Licensed Software, so that use is independent of the Licensed Software and the terms and
conditions applicable thereto. For the avoidance of doubt, Third Party Software that is incorporated into
the Licensed Software (i.e., not provided separately) is part of the Licensed Software, but not subject to
the terms and conditions of this Agreement. Third Party Software that is provided together with the
Licensed Software (i.e., provided separately) is not part of the Licensed Software. In both cases, the
respective terms and conditions for the relevant Third Party Software always apply.

(3) Licensor shall also grant Licensee access to user documentation for the Licensed Software ("Licensed
Documentation"). The Licensed Software and the Licensed Documentation are jointly referred to as
"Licensed Material". Any data (e.g. files, data base materials) which is provided by Licensor in
connection with the Licensed Software or the Licensed Documentation is also part of the Licensed
Material.
(4) Any updates for and modifications of the Licensed Material provided by the Licensor during the term of
this Agreement will also be provided subject to the terms and conditions of this Agreement, regardless
of the fact whether or not such updates or modifications are free of charge and regardless whether or
not Licensor explicitly refers to this Agreement.
§ 2 Grant of Rights; Restrictions
(1) Licensee acknowledges that Licensor is the sole owner of all rights in and all know-how pertaining to
the Licensed Material except as for Third-Party Software. Licensee shall forbear to attack those rights
and will adequately inform third parties of Licensor's ownership of those rights. Regarding Third Party
Software, Licensor clarifies that no rights as author or rights holder are claimed by Licensor in this
respect.

(2) Licensor hereby grants to Licensee the non-exclusive, non-transferable right to use and exploit and the
right to copy the Licensed Material without limitation in time, manner or place subject to the terms and
conditions of this Agreement. With respect to the Licensed Software Licensor grants to Licensee also
the non-exclusive and non-transferable rights to revise and to compile the Licensed Software as far as

mandatory legal provisions prevent Licensor from the exclusion of such right; any further right to revise
or to compile is excluded.
(3) The right to use and exploit is limited to the purposes described in this Agreement, especially the
specified Purpose of Use.
(4) The right to copy the Licensed Software herein is limited to the installation of the Licensed Software on
a Single Computer System which is in Licensee's immediate possession and to fulfill the Purpose of
Use. For the purposes of this Agreement, a Single Computer System means any instance of a computer
on which the Licensed Software can be installed or which can be used to operate the Licensed Software.
In the case of virtualization, each virtualized system is a Single Computer System; a Single Computer
System may include one or more processors with one or more cores. Licensee may copy the Licensed
Software as far as this is required for the loading, display, running, transfer or storage of the Licensed
Software on the Single Computer System after the installation. Furthermore, Licensee is entitled to make
a copy for security backup purposes if and as required by mandatory legal provisions.
(5) The right to use and exploit and the right to copy the Licensed Documentation as a single product are
limited to internal purposes. Licensee may make printouts and/or additional copies provided that these
printouts and/or copies are solely used for internal purposes.
(6) Licensee may transfer the rights granted under this Agreement to a third party provided that the Licensed
Software is incorporated in Licensee's products as described under the Purpose of Use and Licensee's
product is sold or otherwise distributed with the Licensed Software being incorporated. For the
avoidance of doubt, Licensee may not sell, transfer or otherwise distribute the Licensed Software without
it being incorporated in Licensee's products. Licensee shall ensure that all obligations under this

Agreement are passed on to the third party to which Licensee's products are sold or otherwise
distributed. Licensee may not retain any Licensed Material after the transfer.
(7) More extensive rights, especially concerning the right to use and exploit the Licensed Software, are not
granted to Licensee. The provisions of this Agreement shall be narrowly construed in cases of doubt.
Licensor's copyright of the Software shall not be exhausted by this Agreement.
(8) The Licensed Software may contain code provided by third parties (e.g. open source software or
Microsoft software). Such code is protected by the third parties' intellectual property rights and – for the
benefit of the third parties – subject to the restrictions of this Agreement.

§ 3 Purpose of Use
(1) Licensor is licensing the Licensed Software to Licensee for incorporation in Licensee's products. The
Licensed Software is designed to be incorporated in a hardware product, e.g. a manufacturing machine.
Software is not regarded as a product under this Agreement. Therefore, Licensee may not sell, transfer
or otherwise distribute the Licensed Software if it is only combined with or incorporated in a software
product.
(2) Prior to distribution of a product by Licensee that contains Licensed Software, Licensee shall ensure
that the Licensed Software works properly and can be used in connection with its own product; the same
shall apply in the event of the import of updates and the making of adjustments relating to Licensed
Software.
(3) The Licensed Software shall only be used as a single installed instance on one Single Computer System
as defined in § 2 (4). A Single Computer System shall be identified by, among others, its central

processing unit ("CPU"). The use of the Licensed Software is also admitted on a single virtual machine.
Licensee is obliged to provide information on the use of virtual machines upon request. A parallel use
of the Licensed Software by means of cloned virtual machines shall be prohibited.
(4) (4) In the event of a change of CPU or other hardware components or a change of the virtual machine,
the Licensee may have to request new licence keys from the Licensor. Licensee is responsible for
providing the system environment in accordance with system requirements for the use of the Licensed
Software specified by Licensor.
(5) Licensee may connect the Licensed Software to other software (facilitating interoperability). The
Licensed Documentation shall contain a description of the interfaces provided for this purpose.
Otherwise, Licensee shall not modify, translate, or otherwise edit and transform the Licensed Software.
Neither shall Licensee retranslate the software into the form of source programs or other modes of
presentation. Any retranslation of parts the Licensed Software for making an independently developed
program interoperable with the Licensed Software shall be subject to the applicable legal provisions and
of license provisions of code contained under par. 2(8).
(6) Licensor provides with the Licensed Software a tool to enable Licensee to create own software and to
incorporate such software with the Licensed Software in a hardware product. Licensor does not warrant
that the Licensed Software is suitable for any particular purpose. Licensee is obliged to examine the
suitability of the Licensed Software and any software based on or connected with the Licensed Software.
Licensee shall not incorporate the Licensed Software in any hardware product without adequate testing.
§ 4 Protection of Licensed Material
(1) Notwithstanding the Grants of Rights, Licensor shall keep all rights of the Licensed Material, and that

includes any copies or partial copies of any Licensed Material made by or on behalf of Licensee. The
foregoing shall not affect Licensee's property of data storage media, memory devices, and data
processing devices.

(2) Licensee shall leave any notices of intellectual property rights, such as copyright notices and other
reservations of rights unchanged, and it shall adopt such notices without change into any copies made
by Licensee of Licensed Material in whole or in part.
(3) Licensee shall neither make Licensed Material available to third parties in original, nor as complete or
partial copies, without Licensor's express written consent. The same shall apply in the case of complete
or partial sale or dissolution of Licensee's business enterprise. Licensee's employees or other persons
shall not be considered to be third parties while they stay with Licensee in order to make use of Licensed
Material as provided under this Agreement.
(4) License shall not modify or distribute the Licensed Material or parts thereof in a way that the Licensed
Material requires, as a condition of use, modification or distribution, that the code of the Licensed
Software to be disclosed or distributed in source code or others have the right to modify the code of the
Licensed Software.
(5) The Licensed Software is subject to a product activation process. Licensee may use the Licensed
Software for an evaluation ("trial") with respective product trial features before activation. This use of the
trial version may be subject to time or functional restrictions. After expiration of the evaluation, the
Licensed Software can only be used continuously, fully featured, after the product activation process

has been successfully completed.

(6) In order to create license keys necessary for the completion of the product activation process, Licensor
may request certain data from Licensee. Licensee is obliged to answer Licensor's requests in due
course. Licensor may also establish a direct connection between the computer system on which the
Licensed Software is installed and a system operated by or on behalf of Licensor in order to exchange
the necessary data for the product activation process.

(7) In addition to the product activation process, the Licensed Software may be protected by a software
protection measures. If the Licensee uses third party hardware for the execution of the Licensed
Software, the use of a specific software protection measure offered by Licensor may be mandatory.

(8) Licensee may not try to disable or bypass any protection established by Licensor unless explicitly
permitted by mandatory legal provisions.

§ 5 Delivery

(1) Licensor shall deliver the Licensed Software for the exercise of the rights to use and exploit granted to
Licensee herein in machine-readable form at Licensor's sole discretion either stored on a type of data
storage media in common use at the time or by making available the Licensed Software for download.

(2) Licensee shall receive the Licensed Documentation as electronic document unless agreed otherwise.
The Licensed Documentation can, also at Licensor's sole discretion, be stored on the same or a different
data storage medium as the Licensed Software or it can be made available for download.

(3) If Licensed Material is made available for download Licensor shall provide Licensee with all information
necessary to download the Licensed Material, e.g. URL and/or passwords.

(4) Insofar as the obligation exists with respect to Third Party Software to make the source code available
with the corresponding Third Party Software, Licensor shall fulfill a corresponding obligation upon
request by providing the source code or making the source code available, for example for download
via a specified link.

§ 6 License Fees

(1) The licensee fees owed by Licensee to Licensor for the grant of rights hereunder are determined by
Licensor based on the software version provided to Licensee.

(2) Licensor will invoice the license fees to Licensee. Invoices are due upon receipt. A payment term is
granted in accordance with the stipulations contained in the invoice. In the event Licensor's affiliate is
involved in the invoicing and/or collection of the fees a payment to or an invoice rendered by such
Licensor's affiliate shall be deemed a payment to or an invoice rendered by Licensor for purposes of
this § 6.

(3) All amounts in this Agreement are stated excluding any applicable Value Added Taxes (VAT) and sales
tax, if any. The current rate of statutory VAT and sales tax shall be invoiced and paid in addition to all
fees as far as applicable. Licensor shall state the rate and amount of VAT separately on the invoice.

§ 7 Warranty

(1) The parties agree that it is not possible to develop software such that it meets all the requirements of
the application without error. Licensor shall make available the Licensed Documentation explaining the
intended use and the conditions of usage of the Licensed Software, which shall always be kept up to
date.

(2) Licensor warrants Licensee that the Licensed Software provided by Licensor is substantially in
accordance with the Licensed Documentation. There can be no claim under this warranty in the case of

minor or immaterial deviations from the agreed or assumed characteristics nor in the case of merely
slight impairment of use. Descriptions given in the Licensed Documentation shall not be deemed
guaranteed unless separately agreed in writing. In respect of updates and modifications, the warranty
shall be limited to the latest version of the software or new features of the update or modification
compared to the previous version release.

between BECKHOFF Automation GmbH & Co. KG

(3) In case of a significant deviation from the Licensed Documentation, Licensor shall have the right and,
unless this requires unreasonable expenditure and unless it is technically not possible, the duty to
remedy such deviation by improvement, replacement delivery or replacement services. The remedying
of a significant deviation may also take place through the delivery or installation of a new version of the
Licensed Software or a workaround. If Licensor does not succeed in eliminating such significant
deviations from the Licensed Documentation within a period of time of reasonable length or is unable to
avoid such deviations in a manner allowing Licensee a usage of the Licensed Software as provided
under this Agreement, Licensee may demand a reduction of the licensee fees or, if the Licensed
Software is rendered useless for Licensee, it may cancel the license for the Licensed Software without
notice against redemption of the licensee fees.
(4) Licensee shall make verifiable documents concerning the kind and the occurrence of such deviations in
the performance of the Licensed Software available to Licensor, and it shall cooperate in the localization
of defects.

(5) This warranty shall not extend to defects caused by deviating from the conditions intended for the use
of the Licensed Software and explained in the Licensed Documentation.
(6) The warranty period is limited to one (1) year and shall begin on the date of delivery of the Licensed
Material to Licensee. This warranty is exclusive of any warranty claims other than the ones mentioned
under this § 7 and § 8.
(7) The warranty regulations shall not apply for the time of a timely limited trial period, except in cases of
willfully caused malfunctions of the Licensed Software.
§ 8 Liability of Licensor
(1) Licensor shall have unlimited liability in the event of intent and gross negligence of Licensor or Licensor's
agents; in all other respects, liability shall be limited and/or excluded in accordance with the following
provisions.
(2) Licensor shall only be liable for slight negligence of Licensor or Licensor's agents if an obligation which
is of particular importance for realizing the objective of this Agreement is infringed upon (i.e. a material
duty). In this case, liability shall be limited as defined in the following subparagraph; in all other cases,
liability for slight negligence shall be excluded in its entirety.
(3) With regard to the slightly negligent breach of a material duty, liability of Licensor and Licensor's agents
shall be limited to the contractually relevant, foreseeable damage or loss. Licensee shall point out to
Licensor in writing any special risks, any atypical possibilities of sustaining damages and any
extraordinary amounts of damages that may be sustained. Licensor shall, however, be exempted from
any liability for consequential damages, for lack of economic success, for indirect damages, and for
damages resulting from claims of third parties, in particular such damages resulting from the use of the
Licensed Software for the development of other software. The exclusion of liability as defined before

shall not apply insofar as the excluded liability elements are part of the contractual relevant, foreseeable
damage, which the parties do not assume.

between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,

(4) Licensor's liability does not include any compensation for damages of a hardware product in which the
Licensed Software is incorporated or caused by such a hardware product. Furthermore, Licensor's
liability under the subparagraph (3) is limited to the maximum amount equal to the license fees for the
Licensed Software.
(5) Licensor shall not be liable beyond the bounds set forth under subparagraph (1) and (2), except for
insufficient quality of the software through Licensor's own fault or through the fault of its agents, but only
if essential functions of the supplied software are affected by such insufficient quality of the software,
and for any other breach or nonperformance of duties essential for the performance of this agreement
through Licensor's own fault or through the fault of its agents.
(6) Licensor shall only be liable for the recovery of data if Licensee has secured the possibility of reproducing
such data at reasonable expenditure and in accordance with the principles of proper data processing
from data provided in machine-readable form.
(7) The same limitations of licensor's liability as set forth under the foregoing subparagraph (2) shall apply
to any culpable breach of duties under this agreement committed by ordinary agents.
(8) Licensor's liability for a breach of guarantees, under the Product Liability Act and for death, personal
injury or damage to health caused by intent or negligence shall remain unaffected by the foregoing
provisions.
§ 9 Intellectual Property Rights of Third Parties

(1) Licensor warrants that it has no present knowledge of an intellectual property right or copyright of a third
party which prevents the use of Licensed Material in accordance with this Agreement.
(2) It is in Licensor's sole discretion to decide if Licensor defends Licensee against claims made for an
infringement of an intellectual property right or copyright caused by the Licensed Material while used as
per this Agreement. Licensee shall notify Licensor without delay of the making of any such claims. If
Licensor does not defend Licensee, Licensee shall be free to defend itself. Licensor shall assist Licensee
in doing so, just as Licensee is under an obligation to assist Licensor.
(3) If claims under subparagraph (2) have been asserted against Licensee, or if such assertions of claims
must be expected, Licensor may modify or replace the Licensed Material at its own expense as far as
this is reasonable for Licensee. Each party to this Agreement may cancel the license without notice if
such modification or replacement cannot be accomplished at a reasonable expenditure, or if a right of
use cannot be obtained at a reasonable expenditure. This notwithstanding, the provisions made under
§ 8 for the limitation of Licensor's liability shall be applicable correspondingly.
§ 10 Conditions of Usage
(1) The License Materials delivered to Licensee have been developed for being used in a specific Computer
System and for the interaction with specific other software. These conditions of usage are set forth in
the performance description.

(2) If the License Materials are used in a manner not complying with the conditions of usage under sub-
paragraph (1) Licensor shall be discharged from any and all warranty obligations under § 7, 8 and 9.
§ 11 Termination, Return and Deletion of License Materials

(1) Licensee may cancel this Agreement as a whole or, if Licensee has acquired more than one license,

with respect to any acquired license in part by giving one month's notice hereof to Licensor.

(2) Licensor shall not cancel this Agreement any sooner than after twelve (12) months for the purpose of a

general revision of the terms and conditions of this Agreement, and it shall give Licensee three months'

notice hereof. If it is not reasonable for Licensee, under the revised terms and conditions after Licensor's

notice of cancellation, to continue using the Licensed Software for which Licensee has paid non-

recurrent license fees, Licensee shall be reimbursed pro rata for the time Licensee could not use the

Licensed Software, the basis for such pro rata reimbursement being the ordinary useful life of the

Licensed Software under tax law. This Agreement is subject to cancellation without notice by either party

for good cause ("wichtiger Grund"); in particular, but not limited thereto, in case of a breach of § 2, 3 and

4.

(3) As soon as a notice takes effect, regardless of its time and reason, Licensee shall return to Licensor the

original and all copies and partial copies of the Licensed Material. As far as the Licensed Software which

is stored on data storage media is concerned, the Licensed Software shall be completely deleted in lieu

of being returned.

(4) If Licensee replaces cancelled software by a successor application offered by Licensor it may keep the

cancelled software for up to three months as a standby reserve. Any further retention of an archival

storage copy shall be subject to a written agreement.

§ 12 Statute of Limitations, Miscellaneous

(1) Any claims made for a breach of § 2, 3 and 4 shall expire no later than six (6) years after their accrual,

any other claims from this Agreement shall expire no later than three (3) years after their accrual, un-

less shorter terms are applicable under the statute of limitations.

(2) Any modification of or supplement of this Agreement shall only be valid if made in writing. This shall also
apply to amendments of this written form requirement.
(3) The parties agree that any disputes arising from this Agreement shall come under the exclusive
jurisdiction of the courts of competent jurisdiction over Verl, Germany. Licensor reserves its right,
however, to file suit against Licensee with the court of competent jurisdiction over Licensee's commercial
domicile.
(4) This Agreement is governed by the Law of the Federal Republic of Germany except for the United
Nations Convention on Contracts for the International Sales of Goods (CSIG).

storage media in common use at the time or by making available the Licensed Software for download.
(2) Licensee shall receive the Licensed Documentation as electronic document unless agreed otherwise.
The Licensed Documentation can, also at Licensor's sole discretion, be stored on the same or a different
data storage medium as the Licensed Software or it can be made available for download.
(3) If Licensed Material is made available for download Licensor shall provide Licensee with all information
necessary to download the Licensed Material, e.g. URL and/or passwords.

(4) Insofar as the obligation exists with respect to Third Party Software to make the source code available
with the corresponding Third Party Software, Licensor shall fulfill a corresponding obligation upon
request by providing the source code or making the source code available, for example for download
via a specified link.
§ 6 License Fees
(1) The licensee fees owed by Licensee to Licensor for the grant of rights hereunder are determined by

Licensor based on the software version provided to Licensee.

(2) Licensor will invoice the license fees to Licensee. Invoices are due upon receipt. A payment term is
granted in accordance with the stipulations contained in the invoice. In the event Licensor's affiliate is
involved in the invoicing and/or collection of the fees a payment to or an invoice rendered by such
Licensor's affiliate shall be deemed a payment to or an invoice rendered by Licensor for purposes of
this § 6.

(3) All amounts in this Agreement are stated excluding any applicable Value Added Taxes (VAT) and sales
tax, if any. The current rate of statutory VAT and sales tax shall be invoiced and paid in addition to all
fees as far as applicable. Licensor shall state the rate and amount of VAT separately on the invoice.

§ 7 Warranty

(1) The parties agree that it is not possible to develop software such that it meets all the requirements of
the application without error. Licensor shall make available the Licensed Documentation explaining the
intended use and the conditions of usage of the Licensed Software, which shall always be kept up to
date.

(2) Licensor warrants Licensee that the Licensed Software provided by Licensor is substantially in
accordance with the Licensed Documentation. There can be no claim under this warranty in the case of
minor or immaterial deviations from the agreed or assumed characteristics nor in the case of merely
slight impairment of use. Descriptions given in the Licensed Documentation shall not be deemed
guaranteed unless separately agreed in writing. In respect of updates and modifications, the warranty
shall be limited to the latest version of the software or new features of the update or modification
compared to the previous version release.

(3) In case of a significant deviation from the Licensed Documentation, Licensor shall have the right and,
unless this requires unreasonable expenditure and unless it is technically not possible, the duty to
remedy such deviation by improvement, replacement delivery or replacement services. The remedying
of a significant deviation may also take place through the delivery or installation of a new version of the
Licensed Software or a workaround. If Licensor does not succeed in eliminating such significant
deviations from the Licensed Documentation within a period of time of reasonable length or is unable to
avoid such deviations in a manner allowing Licensee a usage of the Licensed Software as provided
under this Agreement, Licensee may demand a reduction of the licensee fees or, if the Licensed
Software is rendered useless for Licensee, it may cancel the license for the Licensed Software without
notice against redemption of the licensee fees.
(4) Licensee shall make verifiable documents concerning the kind and the occurrence of such deviations in
the performance of the Licensed Software available to Licensor, and it shall cooperate in the localization
of defects.
(5) This warranty shall not extend to defects caused by deviating from the conditions intended for the use
of the Licensed Software and explained in the Licensed Documentation.
(6) The warranty period is limited to one (1) year and shall begin on the date of delivery of the Licensed
Material to Licensee. This warranty is exclusive of any warranty claims other than the ones mentioned
under this § 7 and § 8.
(7) The warranty regulations shall not apply for the time of a timely limited trial period, except in cases of
willfully caused malfunctions of the Licensed Software.
§ 8 Liability of Licensor

(1) Licensor shall have unlimited liability in the event of intent and gross negligence of Licensor or Licensor's
agents; in all other respects, liability shall be limited and/or excluded in accordance with the following
provisions.
(2) Licensor shall only be liable for slight negligence of Licensor or Licensor's agents if an obligation which
is of particular importance for realizing the objective of this Agreement is infringed upon (i.e. a material
duty). In this case, liability shall be limited as defined in the following subparagraph; in all other cases,
liability for slight negligence shall be excluded in its entirety.
(3) With regard to the slightly negligent breach of a material duty, liability of Licensor and Licensor's agents
shall be limited to the contractually relevant, foreseeable damage or loss. Licensee shall point out to
Licensor in writing any special risks, any atypical possibilities of sustaining damages and any
extraordinary amounts of damages that may be sustained. Licensor shall, however, be exempted from
any liability for consequential damages, for lack of economic success, for indirect damages, and for
damages resulting from claims of third parties, in particular such damages resulting from the use of the
Licensed Software for the development of other software. The exclusion of liability as defined before
shall not apply insofar as the excluded liability elements are part of the contractual relevant, foreseeable
damage, which the parties do not assume.

(4) Licensor's liability does not include any compensation for damages of a hardware product in which the
Licensed Software is incorporated or caused by such a hardware product. Furthermore, Licensor's

liability under the subparagraph (3) is limited to the maximum amount equal to the license fees for the
Licensed Software.
(5) Licensor shall not be liable beyond the bounds set forth under subparagraph (1) and (2), except for
insufficient quality of the software through Licensor's own fault or through the fault of its agents, but only
if essential functions of the supplied software are affected by such insufficient quality of the software,
and for any other breach or nonperformance of duties essential for the performance of this agreement
through Licensor's own fault or through the fault of its agents.
(6) Licensor shall only be liable for the recovery of data if Licensee has secured the possibility of reproducing
such data at reasonable expenditure and in accordance with the principles of proper data processing
from data provided in machine-readable form.
(7) The same limitations of licensor's liability as set forth under the foregoing subparagraph (2) shall apply
to any culpable breach of duties under this agreement committed by ordinary agents.
(8) Licensor's liability for a breach of guarantees, under the Product Liability Act and for death, personal
injury or damage to health caused by intent or negligence shall remain unaffected by the foregoing
provisions.
§ 9 Intellectual Property Rights of Third Parties
(1) Licensor warrants that it has no present knowledge of an intellectual property right or copyright of a third
party which prevents the use of Licensed Material in accordance with this Agreement.
(2) It is in Licensor's sole discretion to decide if Licensor defends Licensee against claims made for an
infringement of an intellectual property right or copyright caused by the Licensed Material while used as
per this Agreement. Licensee shall notify Licensor without delay of the making of any such claims. If
Licensor does not defend Licensee, Licensee shall be free to defend itself. Licensor shall assist Licensee
in doing so, just as Licensee is under an obligation to assist Licensor.

(3) If claims under subparagraph (2) have been asserted against Licensee, or if such assertions of claims
must be expected, Licensor may modify or replace the Licensed Material at its own expense as far as
this is reasonable for Licensee. Each party to this Agreement may cancel the license without notice if
such modification or replacement cannot be accomplished at a reasonable expenditure, or if a right of
use cannot be obtained at a reasonable expenditure. This notwithstanding, the provisions made under
§ 8 for the limitation of Licensor's liability shall be applicable correspondingly.
§ 10 Conditions of Usage
(1) The License Materials delivered to Licensee have been developed for being used in a specific Computer
System and for the interaction with specific other software. These conditions of usage are set forth in
the performance description.

(2) If the License Materials are used in a manner not complying with the conditions of usage under sub-
paragraph (1) Licensor shall be discharged from any and all warranty obligations under § 7, 8 and 9.
§ 11 Termination, Return and Deletion of License Materials
(1) Licensee may cancel this Agreement as a whole or, if Licensee has acquired more than one license,
with respect to any acquired license in part by giving one month's notice hereof to Licensor.
(2) Licensor shall not cancel this Agreement any sooner than after twelve (12) months for the purpose of a
general revision of the terms and conditions of this Agreement, and it shall give Licensee three months'
notice hereof. If it is not reasonable for Licensee, under the revised terms and conditions after Licensor's
notice of cancellation, to continue using the Licensed Software for which Licensee has paid non-

recurrent license fees, Licensee shall be reimbursed pro rata for the time Licensee could not use the
Licensed Software, the basis for such pro rata reimbursement being the ordinary useful life of the
Licensed Software under tax law. This Agreement is subject to cancellation without notice by either party
for good cause ("wichtiger Grund"); in particular, but not limited thereto, in case of a breach of § 2, 3 and
4.
(3) As soon as a notice takes effect, regardless of its time and reason, Licensee shall return to Licensor the
original and all copies and partial copies of the Licensed Material. As far as the Licensed Software which
is stored on data storage media is concerned, the Licensed Software shall be completely deleted in lieu
of being returned.
(4) If Licensee replaces cancelled software by a successor application offered by Licensor it may keep the
cancelled software for up to three months as a standby reserve. Any further retention of an archival
storage copy shall be subject to a written agreement.
§ 12 Statute of Limitations, Miscellaneous
(1) Any claims made for a breach of § 2, 3 and 4 shall expire no later than six (6) years after their accrual,
any other claims from this Agreement shall expire no later than three (3) years after their accrual, un-
less shorter terms are applicable under the statute of limitations.
(2) Any modification of or supplement of this Agreement shall only be valid if made in writing. This shall also
apply to amendments of this written form requirement.
(3) The parties agree that any disputes arising from this Agreement shall come under the exclusive
jurisdiction of the courts of competent jurisdiction over Verl, Germany. Licensor reserves its right,
however, to file suit against Licensee with the court of competent jurisdiction over Licensee's commercial
domicile.
(4) This Agreement is governed by the Law of the Federal Republic of Germany except for the United

Nations Convention on Contracts for the International Sales of Goods (CSIG).

Software License Agreement for Beckhoff Software Products
between BECKHOFF Automation GmbH & Co. KG
Huelshorstweg 20, 33415 Verl, Germany,

§ 1 Scope of this Agreement
(1) Licensor has agreed with Licensee to grant Licensee a license to use and exploit the software set out
in the software license purchase agreement or in connection with the download link ("Licensed
Software") subject to the terms and conditions of this Software License Agreement ("Agreement").
(2) Licensor points out that Licensed Software may also contain components that do not originate from
Licensor but from third parties ("Third Party Software"). Third Party Software may be part of the Licensed
Software, whereby with respect to Third Party Software only the respective license terms of the Third
Party shall apply. Third Party Software may be software that is freely available under an open source
license or software that is provided by a third party under its own license. As far as required Licensor
shall provide Licensee with an overview of which components are considered Third Party Software and

which conditions apply to them. Licensor may also provide Third Party Software that can be used
together with Licensed Software, such as optional add-ons. In such cases, Third Party Software is not
part of the Licensed Software, so that use is independent of the Licensed Software and the terms and
conditions applicable thereto. For the avoidance of doubt, Third Party Software that is incorporated into
the Licensed Software (i.e., not provided separately) is part of the Licensed Software, but not subject to
the terms and conditions of this Agreement. Third Party Software that is provided together with the
Licensed Software (i.e., provided separately) is not part of the Licensed Software. In both cases, the
respective terms and conditions for the relevant Third Party Software always apply.
(3) Licensor shall also grant Licensee access to user documentation for the Licensed Software ("Licensed
Documentation"). The Licensed Software and the Licensed Documentation are jointly referred to as
"Licensed Material". Any data (e.g. files, data base materials) which is provided by Licensor in
connection with the Licensed Software or the Licensed Documentation is also part of the Licensed
Material.
(4) Any updates for and modifications of the Licensed Material provided by the Licensor during the term of
this Agreement will also be provided subject to the terms and conditions of this Agreement, regardless
of the fact whether or not such updates or modifications are free of charge and regardless whether or
not Licensor explicitly refers to this Agreement.
§ 2 Grant of Rights; Restrictions
(1) Licensee acknowledges that Licensor is the sole owner of all rights in and all know-how pertaining to
the Licensed Material except as for Third-Party Software. Licensee shall forbear to attack those rights
and will adequately inform third parties of Licensor's ownership of those rights. Regarding Third Party

Software, Licensor clarifies that no rights as author or rights holder are claimed by Licensor in this
respect.

(2) Licensor hereby grants to Licensee the non-exclusive, non-transferable right to use and exploit and the
right to copy the Licensed Material without limitation in time, manner or place subject to the terms and
conditions of this Agreement. With respect to the Licensed Software Licensor grants to Licensee also
the non-exclusive and non-transferable rights to revise and to compile the Licensed Software as far as
mandatory legal provisions prevent Licensor from the exclusion of such right; any further right to revise
or to compile is excluded.
(3) The right to use and exploit is limited to the purposes described in this Agreement, especially the
specified Purpose of Use.
(4) The right to copy the Licensed Software herein is limited to the installation of the Licensed Software on
a Single Computer System which is in Licensee's immediate possession and to fulfill the Purpose of
Use. For the purposes of this Agreement, a Single Computer System means any instance of a computer
on which the Licensed Software can be installed or which can be used to operate the Licensed Software.
In the case of virtualization, each virtualized system is a Single Computer System; a Single Computer
System may include one or more processors with one or more cores. Licensee may copy the Licensed
Software as far as this is required for the loading, display, running, transfer or storage of the Licensed
Software on the Single Computer System after the installation. Furthermore, Licensee is entitled to make
a copy for security backup purposes if and as required by mandatory legal provisions.

(5) The right to use and exploit and the right to copy the Licensed Documentation as a single product are
limited to internal purposes. Licensee may make printouts and/or additional copies provided that these
printouts and/or copies are solely used for internal purposes.
(6) Licensee may transfer the rights granted under this Agreement to a third party provided that the Licensed
Software is incorporated in Licensee's products as described under the Purpose of Use and Licensee's
product is sold or otherwise distributed with the Licensed Software being incorporated. For the
avoidance of doubt, Licensee may not sell, transfer or otherwise distribute the Licensed Software without
it being incorporated in Licensee's products. Licensee shall ensure that all obligations under this
Agreement are passed on to the third party to which Licensee's products are sold or otherwise
distributed. Licensee may not retain any Licensed Material after the transfer.
(7) More extensive rights, especially concerning the right to use and exploit the Licensed Software, are not
granted to Licensee. The provisions of this Agreement shall be narrowly construed in cases of doubt.
Licensor's copyright of the Software shall not be exhausted by this Agreement.
(8) The Licensed Software may contain code provided by third parties (e.g. open source software or
Microsoft software). Such code is protected by the third parties' intellectual property rights and – for the
benefit of the third parties – subject to the restrictions of this Agreement.

§ 3 Purpose of Use
(1) Licensor is licensing the Licensed Software to Licensee for incorporation in Licensee's products. The
Licensed Software is designed to be incorporated in a hardware product, e.g. a manufacturing machine.

Software is not regarded as a product under this Agreement. Therefore, Licensee may not sell, transfer
or otherwise distribute the Licensed Software if it is only combined with or incorporated in a software
product.
(2) Prior to distribution of a product by Licensee that contains Licensed Software, Licensee shall ensure
that the Licensed Software works properly and can be used in connection with its own product; the same
shall apply in the event of the import of updates and the making of adjustments relating to Licensed
Software.
(3) The Licensed Software shall only be used as a single installed instance on one Single Computer System
as defined in § 2 (4). A Single Computer System shall be identified by, among others, its central
processing unit ("CPU"). The use of the Licensed Software is also admitted on a single virtual machine.
Licensee is obliged to provide information on the use of virtual machines upon request. A parallel use
of the Licensed Software by means of cloned virtual machines shall be prohibited.
(4) (4) In the event of a change of CPU or other hardware components or a change of the virtual machine,
the Licensee may have to request new licence keys from the Licensor. Licensee is responsible for
providing the system environment in accordance with system requirements for the use of the Licensed
Software specified by Licensor.
(5) Licensee may connect the Licensed Software to other software (facilitating interoperability). The
Licensed Documentation shall contain a description of the interfaces provided for this purpose.
Otherwise, Licensee shall not modify, translate, or otherwise edit and transform the Licensed Software.
Neither shall Licensee retranslate the software into the form of source programs or other modes of
presentation. Any retranslation of parts the Licensed Software for making an independently developed

program interoperable with the Licensed Software shall be subject to the applicable legal provisions and
of license provisions of code contained under par. 2(8).
(6) Licensor provides with the Licensed Software a tool to enable Licensee to create own software and to
incorporate such software with the Licensed Software in a hardware product. Licensor does not warrant
that the Licensed Software is suitable for any particular purpose. Licensee is obliged to examine the
suitability of the Licensed Software and any software based on or connected with the Licensed Software.
Licensee shall not incorporate the Licensed Software in any hardware product without adequate testing.
§ 4 Protection of Licensed Material
(1) Notwithstanding the Grants of Rights, Licensor shall keep all rights of the Licensed Material, and that
includes any copies or partial copies of any Licensed Material made by or on behalf of Licensee. The
foregoing shall not affect Licensee's property of data storage media, memory devices, and data
processing devices.

between BECKHOFF Automation GmbH & Co. KG

(2) Licensee shall leave any notices of intellectual property rights, such as copyright notices and other
reservations of rights unchanged, and it shall adopt such notices without change into any copies made
by Licensee of Licensed Material in whole or in part.
(3) Licensee shall neither make Licensed Material available to third parties in original, nor as complete or
partial copies, without Licensor's express written consent. The same shall apply in the case of complete
or partial sale or dissolution of Licensee's business enterprise. Licensee's employees or other persons
shall not be considered to be third parties while they stay with Licensee in order to make use of Licensed

Material as provided under this Agreement.
(4) License shall not modify or distribute the Licensed Material or parts thereof in a way that the Licensed
Material requires, as a condition of use, modification or distribution, that the code of the Licensed
Software to be disclosed or distributed in source code or others have the right to modify the code of the
Licensed Software.
(5) The Licensed Software is subject to a product activation process. Licensee may use the Licensed
Software for an evaluation ("trial") with respective product trial features before activation. This use of the
trial version may be subject to time or functional restrictions. After expiration of the evaluation, the
Licensed Software can only be used continuously, fully featured, after the product activation process
has been successfully completed.
(6) In order to create license keys necessary for the completion of the product activation process, Licensor
may request certain data from Licensee. Licensee is obliged to answer Licensor's requests in due
course. Licensor may also establish a direct connection between the computer system on which the
Licensed Software is installed and a system operated by or on behalf of Licensor in order to exchange
the necessary data for the product activation process.
(7) In addition to the product activation process, the Licensed Software may be protected by a software
protection measures. If the Licensee uses third party hardware for the execution of the Licensed
Software, the use of a specific software protection measure offered by Licensor may be mandatory.
(8) Licensee may not try to disable or bypass any protection established by Licensor unless explicitly
permitted by mandatory legal provisions.
§ 5 Delivery
(1) Licensor shall deliver the Licensed Software for the exercise of the rights to use and exploit granted to

Licensee herein in machine-readable form at Licensor's sole discretion either stored on a type of data
storage media in common use at the time or by making available the Licensed Software for download.
(2) Licensee shall receive the Licensed Documentation as electronic document unless agreed otherwise.
The Licensed Documentation can, also at Licensor's sole discretion, be stored on the same or a different
data storage medium as the Licensed Software or it can be made available for download.
(3) If Licensed Material is made available for download Licensor shall provide Licensee with all information
necessary to download the Licensed Material, e.g. URL and/or passwords.

(4) Insofar as the obligation exists with respect to Third Party Software to make the source code available
with the corresponding Third Party Software, Licensor shall fulfill a corresponding obligation upon
request by providing the source code or making the source code available, for example for download
via a specified link.
§ 6 License Fees
(1) The licensee fees owed by Licensee to Licensor for the grant of rights hereunder are determined by
Licensor based on the software version provided to Licensee.
(2) Licensor will invoice the license fees to Licensee. Invoices are due upon receipt. A payment term is
granted in accordance with the stipulations contained in the invoice. In the event Licensor's affiliate is
involved in the invoicing and/or collection of the fees a payment to or an invoice rendered by such
Licensor's affiliate shall be deemed a payment to or an invoice rendered by Licensor for purposes of
this § 6.
(3) All amounts in this Agreement are stated excluding any applicable Value Added Taxes (VAT) and sales

tax, if any. The current rate of statutory VAT and sales tax shall be invoiced and paid in addition to all
fees as far as applicable. Licensor shall state the rate and amount of VAT separately on the invoice.
§ 7 Warranty
(1) The parties agree that it is not possible to develop software such that it meets all the requirements of
the application without error. Licensor shall make available the Licensed Documentation explaining the
intended use and the conditions of usage of the Licensed Software, which shall always be kept up to
date.
(2) Licensor warrants Licensee that the Licensed Software provided by Licensor is substantially in
accordance with the Licensed Documentation. There can be no claim under this warranty in the case of
minor or immaterial deviations from the agreed or assumed characteristics nor in the case of merely
slight impairment of use. Descriptions given in the Licensed Documentation shall not be deemed
guaranteed unless separately agreed in writing. In respect of updates and modifications, the warranty
shall be limited to the latest version of the software or new features of the update or modification
compared to the previous version release.

(3) In case of a significant deviation from the Licensed Documentation, Licensor shall have the right and,
unless this requires unreasonable expenditure and unless it is technically not possible, the duty to
remedy such deviation by improvement, replacement delivery or replacement services. The remedying
of a significant deviation may also take place through the delivery or installation of a new version of the

Licensed Software or a workaround. If Licensor does not succeed in eliminating such significant
deviations from the Licensed Documentation within a period of time of reasonable length or is unable to
avoid such deviations in a manner allowing Licensee a usage of the Licensed Software as provided
under this Agreement, Licensee may demand a reduction of the licensee fees or, if the Licensed
Software is rendered useless for Licensee, it may cancel the license for the Licensed Software without
notice against redemption of the licensee fees.
(4) Licensee shall make verifiable documents concerning the kind and the occurrence of such deviations in
the performance of the Licensed Software available to Licensor, and it shall cooperate in the localization
of defects.
(5) This warranty shall not extend to defects caused by deviating from the conditions intended for the use
of the Licensed Software and explained in the Licensed Documentation.
(6) The warranty period is limited to one (1) year and shall begin on the date of delivery of the Licensed
Material to Licensee. This warranty is exclusive of any warranty claims other than the ones mentioned
under this § 7 and § 8.
(7) The warranty regulations shall not apply for the time of a timely limited trial period, except in cases of
willfully caused malfunctions of the Licensed Software.
§ 8 Liability of Licensor
(1) Licensor shall have unlimited liability in the event of intent and gross negligence of Licensor or Licensor's
agents; in all other respects, liability shall be limited and/or excluded in accordance with the following
provisions.
(2) Licensor shall only be liable for slight negligence of Licensor or Licensor's agents if an obligation which
is of particular importance for realizing the objective of this Agreement is infringed upon (i.e. a material
duty). In this case, liability shall be limited as defined in the following subparagraph; in all other cases,

liability for slight negligence shall be excluded in its entirety.

damage, which the parties do not assume.

(4) Licensor's liability does not include any compensation for damages of a hardware product in which the
Licensed Software is incorporated or caused by such a hardware product. Furthermore, Licensor's
liability under the subparagraph (3) is limited to the maximum amount equal to the license fees for the
Licensed Software.

(5) Licensor shall not be liable beyond the bounds set forth under subparagraph (1) and (2), except for
insufficient quality of the software through Licensor's own fault or through the fault of its agents, but only
if essential functions of the supplied software are affected by such insufficient quality of the software,
and for any other breach or nonperformance of duties essential for the performance of this agreement
through Licensor's own fault or through the fault of its agents.

(6) Licensor shall only be liable for the recovery of data if Licensee has secured the possibility of reproducing
such data at reasonable expenditure and in accordance with the principles of proper data processing
from data provided in machine-readable form.
(7) The same limitations of licensor's liability as set forth under the foregoing subparagraph (2) shall apply
to any culpable breach of duties under this agreement committed by ordinary agents.
(8) Licensor's liability for a breach of guarantees, under the Product Liability Act and for death, personal
injury or damage to health caused by intent or negligence shall remain unaffected by the foregoing
provisions.
§ 9 Intellectual Property Rights of Third Parties
(1) Licensor warrants that it has no present knowledge of an intellectual property right or copyright of a third
party which prevents the use of Licensed Material in accordance with this Agreement.
(2) It is in Licensor's sole discretion to decide if Licensor defends Licensee against claims made for an
infringement of an intellectual property right or copyright caused by the Licensed Material while used as
per this Agreement. Licensee shall notify Licensor without delay of the making of any such claims. If
Licensor does not defend Licensee, Licensee shall be free to defend itself. Licensor shall assist Licensee
in doing so, just as Licensee is under an obligation to assist Licensor.
(3) If claims under subparagraph (2) have been asserted against Licensee, or if such assertions of claims
must be expected, Licensor may modify or replace the Licensed Material at its own expense as far as
this is reasonable for Licensee. Each party to this Agreement may cancel the license without notice if
such modification or replacement cannot be accomplished at a reasonable expenditure, or if a right of
use cannot be obtained at a reasonable expenditure. This notwithstanding, the provisions made under
§ 8 for the limitation of Licensor's liability shall be applicable correspondingly.

paragraph (1) Licensor shall be discharged from any and all warranty obligations under § 7, 8 and 9.
§ 11 Termination, Return and Deletion of License Materials
(1) Licensee may cancel this Agreement as a whole or, if Licensee has acquired more than one license,
with respect to any acquired license in part by giving one month's notice hereof to Licensor.
(2) Licensor shall not cancel this Agreement any sooner than after twelve (12) months for the purpose of a
general revision of the terms and conditions of this Agreement, and it shall give Licensee three months'
notice hereof. If it is not reasonable for Licensee, under the revised terms and conditions after Licensor's
notice of cancellation, to continue using the Licensed Software for which Licensee has paid non-
